Contents

Preface v

List of Contributors xi

EMBRYONIC STEM CELLS, NUCLEAR REPROGRAMMING, AND STEM CELL FATE

Chapter 1
Development of Diverse Hematopoietic Cell Populations from Human Embryonic Stem Cells 3
Rizwan Romee, Ketan Doshi and Dan S. Kaufman

Chapter 2
Using Embryonic Stem Cells as a Model of Pancreatic Development 27
Zhaohui Geng, Lucas Chase and Meri T. Firpo

Chapter 3
Approaches to Identifying Nuclear Reprogramming Factors from Embryonic Stem Cell Biology and Somatic Cell Nuclear Cloning 45
Nobuaki Kikyo

Chapter 4
Cell Cycle Control of Stem Cell Fate 63
Lucas Nacusi and Robert Sheaff

ADULT STEM CELLS

Chapter 5
Multipotent Adult Progenitor Cells 95
Yuehua Jiang, April Breyer and Catherine Verfaillie

STEM CELLS AND REGENERATIVE MEDICINE
© World Scientific Publishing Co. Pte. Ltd.
http://www.worldscibooks.com/lifesci/6633.html

Chapter 6
Ocular Surface Epithelial Stem Cells 111
De-Quan Li, Stephen C. Pflugfelder and Andrew J. W. Huang

STEM CELLS FOR MUSCLE AND HEART

Chapter 7
Stem Cells in Skeletal Muscle Regeneration 145
Atsushi Asakura

Chapter 8
Myogenic Precursor Cells in the Extraocular Muscles 177
Kristen M. Kallestad and Linda K. McLoon

Chapter 9
Treating the Continuum of Coronary Heart Disease with Progenitor-Cell-based Repair: The University of Minnesota Experience 191
Doris A. Taylor, Jonathan D. McCue and Andrey G. Zenovich

Chapter 10
Postnatal Stem Cells for Myocardial Repair 221
Mohammad Nurulqadr Jameel, Peter Eckman, Arthur From, Catherine Verfaillie and Jianyi Zhang

STEM CELLS FOR THE NERVOUS SYSTEM

Chapter 11
Use of a β-Galactosidase Reporter Coupled to Cell-Specific Promoters to Examine Differentiation of Neural Progenitor Cells *In Vivo* and *In Vitro* 265
Dale S. Gregerson

Chapter 12
From Neural Stem Cells to Neuroregeneration 291
Terry C. Burns, Walter C. Low and Catherine M. Verfaillie

STEM CELLS AND REGENERATIVE MEDICINE
© World Scientific Publishing Co. Pte. Ltd.
http://www.worldscibooks.com/lifesci/6633.html

Chapter 13
Cochlear Stem Cells/Progenitors 327
Jizhen Lin, Water Low and Catherine Verfaillie

Chapter 14
Intravascular Delivery Systems for Stem Cell Transplantation in Neurologic Disorders 355
Vallabh Janardhan, Adnan I. Qureshi and Walter C. Low

Chapter 15
Stem Cell Strategies for Treating Inner Ear Dysfunction 397
John H. Anderson and Steven K. Juhn

STEM CELLS FOR LIVER AND KIDNEY

Chapter 16
Renal Stem Cells 419
Sandeep Gupta and Mark E. Rosenberg

Chapter 17
Liver Stem Cells in Regenerative Medicine 445
Xin Wang, Yiping Hu, Zongyu Chen and Xiaoyan Ding

TECHNOLOGY FOR PRODUCTION OF STEM CELLS

Chapter 18
Clinical Manufacture of Stem Cells and Derivative Cell Populations 487
David H. McKenna and John Wagner

Chapter 19
Stem Cell Culture Engineering 513
Kartik Subramanian and Wei-Shou Hu

Index 543
