

**Vandana (Ann) Mangal** is Associate Director for the Easton Technology Leadership Program and for BIT (Business and Information Technologies) Global Research Network with UCLA Anderson School of Management. She has been involved with consulting projects in various areas and co-conducted company case studies. Before joining UCLA, she was working at Intel as the Intel-HP Alliance Manager and developed processes to handle various types of Intellectual Property exchanges between Intel and Hewlett Packard, and delivered training on these processes to over 1000 managers and engineers at several Intel sites.
