**INTERNATIONAL JOURNAL
OF MATHEMATICS (IJM)**

Print / Online ISSN: 0129-167X / 1793-6519
<http://www.worldscinet.com/ijm>

This journal publishes original papers in mathematics in general, but giving a preference to those in the areas of mathematics represented by the editorial board. The journal has been published monthly except in June and December to bring out new results without delay. Occasionally, expository papers of exceptional value may also be published. The first issue appeared in March 1990.

**MATHEMATICAL MODELS AND METHODS
IN APPLIED SCIENCES (M3AS)**

Print / Online ISSN: 0218-2025 / 1793-6314
<http://www.worldscinet.com/m3as>

The purpose of this journal is to provide a medium of exchange for scientists engaged in applied sciences (physics, mathematical physics, natural, and technological sciences) where there exists a non-trivial interplay between mathematics, mathematical modelling of real systems and mathematical and computer methods oriented towards the qualitative and quantitative analysis of real physical systems.

STOCHASTICS AND DYNAMICS (SD)

Print / Online ISSN: 0219-4937 / 1793-6799
<http://www.worldscinet.com/sd>

This interdisciplinary journal is devoted to publishing high quality papers in modeling, analyzing, quantifying and predicting stochastic phenomena in science and engineering from a dynamical system's point of view. Papers can be about theory, experiments, algorithms, numerical simulation and applications. Papers studying the dynamics of stochastic phenomena by means of random or stochastic ordinary, partial or functional differential equations or random mappings are particularly welcome, and so are studies of stochasticity in deterministic systems.
