

CONTENTS

<i>Preface</i>	v
Part I Instabilities, Bifurcation, and the Role of Symmetry	1
1 Symmetry and Pattern Formation on the Visual Cortex (Survey Article)	3
<i>M. Golubitsky, L.-J. Shiau, and A. Török</i>	
2 Matrix Free Approach in the Numerical Analysis of Bifurcations and Instabilities	20
<i>E.L. Allgower, G. Dangelmayr, K. Georg, and I. Oprea</i>	
3 Validity of the Ginzburg-Landau Approximation in Pattern Forming Systems with Time Periodic Forcing	39
<i>N. Breindl, G. Schneider, and H. Uecker</i>	
4 Stability and Bifurcation from Relative Equilibria and Relative Periodic Orbits	58
<i>P. Chossat</i>	
5 Rotating Magnetoconvection with Magnetostrophic Balance	78
<i>K. Julien, E. Knobloch, and S.M. Tobias</i>	
6 Pattern Formation on a Sphere	102
<i>P.C. Matthews</i>	
7 Convergence Properties of Fourier Mode Representations of Quasipatterns	124
<i>A.M. Rucklidge</i>	

Part II	Localized Patterns, Waves, and Weak Turbulence	141
8	Phase Diffusion and Weak Turbulence (Survey Article) <i>J. Lega</i>	143
9	Pattern Formation and Parametric Resonance <i>D. Armbruster and T.-C. Jo</i>	158
10	Mean Flow Effects in Model Equations for Faraday Waves <i>S. Rüdiger and J.M. Vega</i>	174
11	Rogue Waves and the Benjamin-Feir Instability <i>C.M. Schober</i>	194
12	Heterogeneous Pacemakers in Oscillatory Media <i>M. Stich and A.S. Mikhailov</i>	214
Part III	Modelling and Characterization of Spatio-Temporal Complexity	229
13	A Finite-Dimensional Mechanism Responsible for Bursts in Fluid Mechanics (Survey Article) <i>E. Knobloch</i>	231
14	Biological Lattice Gas Models <i>M.S. Alber, M. Kiskowski, Y. Jiang, and S. Newman</i>	274
15	A Comparison of Optimal Low Dimensional Projections of a Hurricane Simulation <i>A. Fox, M. Kirby, J. Persing, and M. Montgomery</i>	292
16	Linear and Nonlinear Nusselt Number Measurements During Electroconvection of a Liquid Crystal <i>J.T. Gleeson</i>	309
17	Characterizations of Far from Equilibrium Structures Using Their Contours <i>G. Nathan and G.H. Gunaratne</i>	319
18	Dynamics near Robust Heteroclinic Cycles <i>J. Porter</i>	329

19	Internal Dynamics of Intermittency	357
	<i>R. Sturman and P. Ashwin</i>	
20	Experiments with Dictyostelium Discoideum Amoebae in Different Geometries	373
	<i>C. Völtz and E. Bodenschatz</i>	
	<i>Index</i>	387
