

Kevin M Smith is the LSU Foundation James C. Bolton Distinguished Professor of Chemistry in Louisiana State University. He received his PhD and DSc degrees from the University of Liverpool (UK), and was a postdoctoral fellow at Harvard University. Dr Smith has received the Corday-Morgan Medal and Prize from the Royal Society of Chemistry, UK, and the Alfred Bader Award in Bioorganic or Bioorganic Chemistry from the American Chemical Society. Dr Smith's interests are in organic and bioorganic chemistry of tetrapyrroles and their pyrrole precursors. He has published 685 papers, edited or co-edited 22 books on the topics of porphyrins and related molecules and has been awarded eight patents.
