

Luigi Mandolini was born in 1943 in Pesaro, Italy. He is a professor of Organic Chemistry and since 1987 has been Director of the Centro di Studio sui Meccanismi di Reazione of CNR at the Università di Roma La Sapienza. He received his education in Chemistry at La Sapienza as a student of Gabriello Illuminati and has served on the staff of the same university since 1970. In 1979, he was awarded the Ciamician Medal of the Società Chimica Italiana for his contributions in the field of macrocyclization reactions. He is presently Chairman of the Management Committee of COST D11 Action on Supramolecular Chemistry. His principal research interests lie in physical and mechanistic organic chemistry, with a particular focus on reactivity and catalysis in supramolecular systems.
