

**Shu Chien** joined UCSD in 1988 and became the founding chair of the Department of Bioengineering in 1994. As principal investigator on the Whitaker Foundation Development Award (1993) and Leadership Award (1998), Chien played a major role in establishing UCSD's bioengineering program as one of the top two programs in the country. As founding Director of the Whitaker Institute of Biomedical Engineering at UCSD, he helps foster collaborations among the faculty of UCSD and with research institutes and biomedical companies in San Diego. He has won numerous awards and is a member of the National Academy of Engineering and the Institute of Medicine. Chien co-founded Celladon Corporation and serves as a consultant to Advanced Tissue Sciences and AVIVA Biosciences. He received his M.D. from the National Taiwan University and his Ph.D. in Physiology from Columbia University, where he was a professor from 1969 to 1988.
