

# CONTENTS

Preface		v
Chapter 1.	High Temperature Superconductors	1
Chapter 2.	Theories of Superconductivity	15
Chapter 3.	Electrodynamics	33
Chapter 4.	Superconducting Phase and Flux Quanta	49
Chapter 5.	Magnetic Resonance and Relaxation	65
Chapter 6.	Flux Pinning, Creep and Flow	81
Chapter 7.	Film Transmission Lines and Resonators	99
Chapter 8.	Waveguides and Cavity Resonators	111
Chapter 9.	Electrodynamics of Type II Superconductivity	129
Chapter 10.	Josephson Electrodynamics	145
Chapter 11.	Granular Superconductivity	159
Chapter 12.	Electrodynamics of Intergranular Junctions	175
Chapter 13.	Microwave Absorption in Transient Magnetic Fields	189
Chapter 14.	Nonlinear Microwave Electrodynamics	205
Chapter 15.	Microwave Processes and Quantum Interference	223
Subject Index		241-247
