

## CONTENTS

Preface	vii
Wolfgang Walter <i>R. M. Redheffer</i>	1
On free boundary problems for quasi-linear elliptic PDE's: Uniqueness and monotone ordering of convex solutions <i>A. Acker</i>	17
On the determination of price and quantity indices and their monotonicity <i>J. D. Aczél and R. Girgensohn</i>	33
An inverse isoperimetric comparison result <i>A. Alvino, V. Ferone, B. Kawohl and G. Trombetti</i>	39
Stabilizing the backward heat equation against errors in the initial time geometry <i>K. A. Ames and L. E. Payne</i>	47
Canonical products of genus two <i>Y. Avishai and R. M. Redheffer</i>	53
Asymptotic behaviour and convexity of large solutions to nonlinear equations <i>C. Bandle and G. Porru</i>	59
Two integral inequalities <i>B. M. Brown, W. D. Evans, W. N. Everitt and V. G. Kirby</i>	73
An interpolation inequality and applications <i>R. C. Brown and D. B. Hinton</i>	87
On the best constant for the inequality $\int_0^\infty y'^2 \leq K(\int_0^\infty  y ) \max_{(0,\infty)}  y'' $ <i>R. C. Brown and M. K. Kwong</i>	103
On functions convex with respect to an $N$ -parameter family of functions <i>D. Brydak</i>	123
Another look at some classical inequalities <i>P. S. Bullen</i>	127

Absolutely continuous solutions of Goursat problems <i>K. Deimling</i>	139
Comparison theorems for a right difocal eigenvalue problem <i>J. Diaz and A. Peterson</i>	149
A lower bound for the zeros of the Bessel functions <i>Á. Elbert and A. Laforgia</i>	179
Comparison of eigenvalues for a system of two-point boundary value problems <i>P. W. Eloe and J. Henderson</i>	187
Differential inequalities for a singular boundary value problem <i>P. W. Eloe and J. Henderson</i>	197
Existence and nonexistence of positive solutions for elliptic equations in an annulus <i>L. H. Erbe and H. Wang</i>	207
On some properties of the $\tau$ -modulus <i>H. Esser, N. Kirchoff, G. Lüttgens and R. J. Nessel</i>	219
Some best constant inequalities of $L(\log L)^\alpha$ - type <i>M. Essén, D. F. Shea and C. S. Stanton</i>	233
Majorization for functions with monotone $N$ th derivatives <i>A. M. Fink</i>	241
Stability of polynomial mappings controlled by $n$ -convex functionals <i>R. Ger</i>	255
A multidimensional Nikolskii-type inequality in the ball <i>P. Goetgheluck</i>	269
Computational inequalities for functions <i>W. Haussmann and K. Zeller</i>	285
On first order differential equations in ordered Banach spaces <i>S. Heikkilä and V. Lakshmikantham</i>	293
On infinite systems of linear boundary value problems <i>G. Herzog and R. Lemmert</i>	303
On the relative $P$ -Capacity and its application to degenerate elliptic equations <i>T. Horiuchi</i>	309

On the null-controllability set, minimal time function and time optimal control of finite dimensional systems	325
<i>S. Hu, V. Lakshmikantham and N. S. Papageorgiou</i>	
Singular Hopf bifurcation problems and rotating-sliding spiral flows	345
<i>G. H. Knightly and D. Sather</i>	
State estimation in nonlinear systems	361
<i>H. W. Knobloch</i>	
Linear ordinary differential equations	381
<i>Q. Kong and A. Zettl</i>	
Superconvexity and internal completeness	399
<i>H. König</i>	
Hardy inequalities of fractional order via interpolation	417
<i>A. Kufner and L. E. Persson</i>	
Dynamic systems on time scales and superlinear convergence of iterative process	431
<i>S. Leela and S. Sivasundaram</i>	
Two inequalities resembling an inequality of Gabushin	437
<i>E. R. Love</i>	
Method of generalized quasilinearization for second order boundary value problem	449
<i>S. Malek and A. S. Vatsala</i>	
Hölder inequality and periodic solutions of some planar polynomial differential equations with periodic coefficients	459
<i>R. Manásevich, J. Mawhin and F. Zanolin</i>	
Nonlinear discrete inequalities and stability of difference equations	467
<i>R. Medina and M. Pinto</i>	
Monotonicity and Olver type comparison results for difference equations	483
<i>M. Migda and J. Popena</i>	
A unified form of the classical mean value theorems	493
<i>Z. Páles</i>	
A generalization of Pólya's inequalities	501
<i>J. Pečarić and S. Varošaneć</i>	

Enclosures for weak solutions of nonlinear elliptic boundary value problems <i>M. Plum</i>	505
On quadratic differential equations <i>A. A. Sagle and K. Schmitt</i>	523
An integral inequality of exponential type for real-valued functions <i>S. Saitoh</i>	537
Remark on quasimonotonicity <i>A. Simon and P. Volkmann</i>	543
Isoperimetric inequalities in a boundary value problem in an unbounded domain <i>R. Sperb</i>	549
On functions whose gradients have a prescribed rearrangement <i>G. Talenti</i>	559
A free boundary value problem with strong absorption <i>V. Weckesser</i>	573
