

## *Contents*

<b>Chapter 1. The Percussion Family</b>	<b>1</b>
1.1. The Percussion Family	
1.2. Historical Notes	
1.3. Percussion Ensembles	
References	
<b>Chapter 2. Drums with Definite Pitch</b>	<b>5</b>
2.1. Vibrations of Strings: A Little Bit of Physics	
2.2. Vibrations of Membranes: Key to Understanding Drums	
2.3. Timpani	
2.4. Timpani Sound	
2.5. Interlude: Subjective Tones and Pitch of the Missing Fundamental	
2.6. The Kettle	
2.7. Interlude: Sound Radiation	
2.8. Tabla and Mrdanga	
2.9. Acoustics of Indian Drums	
References	
<b>Chapter 3. Interlude: Sound and Hearing</b>	<b>21</b>
3.1. Sound Waves	
3.2. Hearing Sound	
3.3. Loudness and Musical Dynamics	
3.4. Sound Power Level	
3.5. Masking Sounds	
3.6. Loudness and Duration	
References	
<b>Chapter 4. Drums with Indefinite Pitch</b>	<b>26</b>
4.1. Tom Toms	
4.2. Interlude: Pitch Glide in Membranes	
4.3. Interlude: Modes of a Two-Mass Vibrator	
4.4. Snare Drum	
4.5. Bass Drum	
4.6. Conga Drums	
4.7. Bongos and Timbales	
4.8. Rototoms	
4.9. Irish Bodhrán	
4.10. African Drums	
4.11. Japanese Drums	
4.12. Indonesian Drums	
References	

<b>Chapter 5. Interlude: Vibrations of Bars and Air Columns</b>	<b>47</b>
5.1. Transverse Vibrations of a Bar or Rod	
5.2. Longitudinal Vibrations of a Bar or Rod	
5.3. Torsional Vibrations of a Bar or Rod	
5.4. Vibrations of Air Columns	
5.5. End Correction	
References	
<b>Chapter 6. Xylophones and Marimbas</b>	<b>52</b>
6.1. Xylophones	
6.2. Marimbas	
6.3. Tuning the Bars	
6.4. Resonators	
6.5. Marimba Orchestras and Clair Musser	
6.6. Mallets	
References	
<b>Chapter 7. Metallophones</b>	<b>64</b>
7.1. Orchestra Bells or Glockenspiel	
7.2. Celesta	
7.3. Vibraphone or Vibes	
7.4. Interlude: Thick Bars vs Thin Bars	
7.5. Chimes or Tubular Bells	
7.6. Triangles and Pentangles	
7.7. Gamelan Metallophones	
7.8. Wind Chimes	
7.9. Tubaphones, Gamelan Chimes, and Other Tubular Metallophones	
7.10. African Lamellaphones: Mbira, Kalimba, Likembe, Sanza, Setinkane	
References	
<b>Chapter 8. Interlude: Vibrations of Plates and Shells</b>	<b>79</b>
8.1. Waves in a Thin Plate	
8.2. Circular Plates	
8.3. Elliptical Plates	
8.4. Rectangular Plates	
8.5. Cylindrical Shells	
8.6. Shallow Spherical Shells	
8.7. Nonlinear Effects in Plates and Shells	
References	
<b>Chapter 9. Cymbals, Gongs, and Plates</b>	<b>89</b>
9.1. Cymbals	
9.2. Vibrational Modes in Cymbals	
9.3. Cymbal Sound	
9.4. Nonlinear Behavior of Cymbals	

9.5. Tam-Tams	
9.6. Gongs	
9.7. Chinese Opera Gongs	
9.8. Bronze Drums	
9.9. Crotales	
9.10. Kyezee	
9.11. Bell Plates	
9.12. Musical Saw	
9.13. Flexatone	
References	
<b>Chapter 10. Music from Oil Drums: Caribbean Steelpans</b>	<b>107</b>
10.1. Construction and Tuning	
10.2. Normal Modes of Vibration	
10.3. Interlude: Holographic Interferometry	
10.4. Modes of a Tenor Pan	
10.5. Modes of a Double-Second Pan	
10.6. Sound Spectra	
10.7. Note Shapes	
10.8. Metallurgy and Heat Treatment	
10.9. Skirts	
10.10. Pans of Other Sizes	
10.11. Recent and Future Developments	
References	
<b>Chapter 11. Church Bells and Carillon Bells</b>	<b>128</b>
11.1. The Carillon	
11.2. Vibrational Modes of Church Bells and Carillon Bells	
11.3. Tuning and Temperament	
11.4. The Strike Note	
11.5. Major-Third Bells	
11.6. Scaling of Bells	
11.7. Sound Decay and Warble	
11.8. Sound Radiation	
11.9. Clappers	
11.10. Bell Metal	
References	
<b>Chapter 12. Handbells, Choirchimes, Crotals, and Cow Bells</b>	<b>146</b>
12.1. Vibrational Modes of Handbells	
12.2. Sound Radiation	
12.3. Sound Decay and Warble in Handbells	
12.4. Timbre and Tuning of Handbells	
12.5. Scaling of Handbells	
12.6. Bass Handbells	
12.7. Choirchimes	

12.8. Chinese Qing	
12.9. Crotals	
12.10. Cow Bells	
References	
<b>Chapter 13. Eastern Bells</b>	<b>164</b>
13.1. Ancient Chinese Two-Tone Bells	
13.2. Vibrational Modes of Ancient Two-Tone Bells	
13.3. Intervals Between the Two Tones	
13.4. Temple Bells in China	
13.5. Korean Bells	
13.6. Japanese Bells	
13.7. Other Asian Bells	
References	
<b>Chapter 14. Glass Musical Instruments</b>	<b>182</b>
14.1. The Glass Harmonica	
14.2. Vibrational Modes of a Wineglass	
14.3. Rubbing, Bowing, Striking	
14.4. Selecting and Tuning the Glasses	
14.5. Verrophone	
14.6. Glass Bells	
14.7. The Glass Orchestra	
14.8. Glass Instruments of Harry Partch and Jean-Claude Chapuis	
14.9. Other Glass Instruments	
References	
<b>Chapter 15. Other Percussion Instruments</b>	<b>192</b>
15.1. Anklung	
15.2. Deagan Organ Chimes	
15.3. Other Deagan Instruments	
15.4. Instruments of Harry Partch	
15.5. Mark Tree	
15.6. Instruments of Bernard and François Baschet	
15.7. Lithophones	
15.8. Ceramic Instruments of Ward Hartenstein	
15.9. Thunder Sheet	
15.10. Typewriter	
References
