

# CONTENTS

|  |     |
|--|-----|
| Preface  | vii |
| Higher Dimensional Chern–Simons Theories and Topological Black Holes<br><i>M. Bañados</i>              | 1   |
| Wormholes on the World Volume: Born–Infeld Particles and<br>Dirichlet p-Branes<br><i>G. W. Gibbons</i> | 12  |
| Evaporation of Primordial Black Holes<br><i>S. W. Hawking</i>  | 23  |
| Fermion Models and Chern–Simons Theories<br><i>F. A. Schaposnik</i>                                    | 37  |
| Uniqueness of $D = 11$ Supergravity<br><i>S. Deser</i>   | 70  |
| Probing Black Holes and Relativistic Stars with Gravitational Waves<br><i>K. S. Thorne</i>             | 81  |
| Chern–Simons Supergravities with Off-Shell Local Superalgebras<br><i>R. Troncoso and J. Zanelli</i>    | 119 |
