

# Contents

1. Mathematical Preliminaries .....	1
1.1 Differentiable Functions .....	1
Example 1.1 .....	1
1.2 The Chain Rule .....	1
Example 1.2 .....	2
1.3 Determinants .....	3
1.4 Cramer's Rule .....	3
1.5 Optimization, $f: R \rightarrow R$ .....	4
1.6 Optimization, $f: R^2 \rightarrow R$ .....	5
Example 1.3 .....	6
1.7 Constrained Optimization, Two Variables, One Constraint .....	7
Example 1.4 .....	8
2. The Methodology of Comparative Statics .....	11
Example 2.1 .....	11
Example 2.2 .....	12
2.1 Comparative Statics and Empirical Testing .....	13
2.2 Implicit Differentiation .....	14
2.3 The Implicit Function Theorem (One Variable, One Parameter) ...	15
Example 2.3 .....	17
Example 2.4 .....	18
2.4 The Implicit Function Theorem (Two Variables, One Parameter) .	19
Example 2.5 .....	20
2.5 Summary of the Technique of Comparative Statics .....	22

<b>3. Comparative Statics with Explicit Solutions</b> . . . . .	<b>27</b>
3.1 Two Classes of Comparative Statics Problems . . . . .	27
3.2 Equilibrium Comparative Statics . . . . .	28
Application 3.1 . . . . .	28
3.3 Comparative Statics with Unconstrained Optimization . . . . .	30
Application 3.2 . . . . .	30
Application 3.3 . . . . .	31
3.4. Comparative Statics with Constrained Optimization . . . . .	34
Application 3.4 . . . . .	34
Application 3.5 . . . . .	37
Problems . . . . .	40
<b>4. Comparative Statics in General Function Models</b> . . . . .	<b>43</b>
4.1. Introduction to General Function Models . . . . .	43
4.2. Equilibrium Comparative Statics . . . . .	43
Application 4.1 . . . . .	43
4.3. Comparative Statics with Unconstrained Optimization . . . . .	47
Application 4.2 . . . . .	47
Application 4.3 . . . . .	50
4.4 Comparative Statics with Constrained Optimization . . . . .	54
Application 4.4 . . . . .	54
Application 4.5 . . . . .	61
4.5 Second-Order Conditions and the Implicit Function Theorem . . . . .	68
Problems . . . . .	69
<b>5. Comparative Statics Theorems for Parameterized</b>	
<b>Optimization Problems</b> . . . . .	<b>75</b>
5.1 Introduction . . . . .	75
Application 5.1 . . . . .	79
5.2 Conjugate Pairs Theorems . . . . .	80
Theorem 5-1A . . . . .	80
Theorem 5-1B . . . . .	81

5.3 Envelope Theorems .....	83
Theorem 5-2A .....	83
Theorem 5-2B .....	84
5.4 Reciprocity Theorems .....	86
Theorem 5-3A .....	86
Theorem 5-3B .....	87
5.5 Applications .....	89
Application 5.2 .....	89
Application 5.3 .....	94
5.6 Profit Maximization and the Le Châtelier Principle .....	99
5.7 Two Approaches to Comparative Statics Analysis .....	104
Problems .....	105
6. Introduction to Primal-Dual Analysis .....	111
6.1 (Border-Preserving) Principal Minors .....	111
6.2 Comparative Statics with Unconstrained Optimization	
Using Primal-Dual Analysis .....	113
Application 6.1 .....	118
6.3 Comparative Statics with Constrained Optimization	
Using Primal-Dual Analysis .....	122
Application 6.2 .....	123
Problems .....	127
Answers to Selected Problems .....	129
Chapter 3 .....	129
Chapter 4 .....	129
Chapter 5 .....	130
Chapter 6 .....	130
Selected References .....	131
Index .....	133
