

Contents

Preface	v
Contributing Authors	ix
1. Molecular Markers in Chinese Medicinal Materials <i>Pang-Chui Shaw, Fai-Ngor Ngan, Paul Pui-Hay But and Jun Wang</i>	1
2. Methodology and Equipment for General Molecular Techniques <i>Forrest Chung-Fai Yau and Fai-Ngor Ngan</i>	25
3. Authentication of Chinese Medicinal Materials by Polymerase Chain Reaction Using Arbitrarily Chosen Primers <i>Hui Cao, Paul Pui-Hay But, Fai Ngor Ngan, Jun Wang and Pang-Chui Shaw</i>	43
4. Authentication of the Components from a Mixture of Herbal Materials <i>Kur-Ta Cheng</i>	69
5. Authentication of Chinese Medicinal Materials by Sequence Characterised Amplified Region <i>Jun Wang, Wai-Yan Ha, Forrest Chung-Fai Yau, Paul Pui-Hay But and Pang-Chui Shaw</i>	85

6. Differentiation of <i>Panax ginseng</i> from <i>P. quinquefolius</i> by Direct Amplification of Length Polymorphisms <i>Wai-Yan Ha, Forrest Chung-Fai Yau, Jun Wang and Pang-Chui Shaw</i>	97
7. Differentiation of <i>Panax ginseng</i> from <i>P. quinquefolius</i> by Amplified Fragment Length Polymorphism <i>Wai-Yan Ha, Forrest Chung-Fai Yau, Pang-Chui Shaw and Jun Wang</i>	109
8. Authentication of Animal Medicinal Materials by DNA Molecular Markers <i>Yiquan Wang and Kaiya Zhou</i>	125
9. Authentication of Medicinal <i>Dendrobium</i> Species by the Internal Transcribed Spacer of Ribosomal DNA <i>David Tai-Wai Lau, Pang-Chui Shaw and Paul Pui-Hay But</i>	155
10. Authentication by DNA Sequencing of 5s rRNA and <i>trnK</i> Genes <i>Hajime Mizukami</i>	169
11. Authentication Based on 18S Ribosomal RNA Gene and <i>matK</i> Gene Sequences <i>Katsuko Komatsu</i>	193
12. Outlook <i>Pang-Chui Shaw, Jun Wang, Paul Pui-Hay But and Forrest Chung-Fai Yau</i>	213
