Foreword.....	vii
Acknowledgments	xi
Introduction.....	xiii

CHAPTER 1 PRODUCTION OF KNOWLEDGE: Moving from Data and Information to Knowledge and Wisdom

1.1 Information is Not Knowledge	1
1.1.1 Knowledge Era.....	2
1.1.2 Knowledge versus Information	3
1.2 Knowledge as Capital	5
1.2.1 Knowledge and the Prosperity of Nations.....	7
1.3 Definition and Taxonomy of Knowledge.....	12
1.3.1 Forms of Knowledge.....	14
1.3.2 DIKW Chain	15
1.3.3 Tacit and Explicit Knowledge?	16
1.3.4 Measuring Knowledge	17
1.3.5 Value of Knowledge: An Example	19
1.3.6 Knowledge-Information Cycle: ECIS	21
1.3.7 Theory of knowledge	25
1.3.8 Language.....	26
1.3.9 Community of Action	27
1.3.10 Knowledge as a Process	27
1.3.11 Uses and Users of Knowledge	28
1.4 Division and Reintegration of Knowledge.....	30
1.4.1 Process of Reintegration	37
1.5 Knowledge Management	39
1.6 Wisdom and Strategy	41
1.6.1 Definition	42

- 1.6.2 On the Art of Asking Why 43
- 1.6.3 Wisdom and Ethics..... 44
- 1.6.4 Wisdom Based Strategy 45
- 1.7 Human Systems Management 48
 - 1.7.1 The Notion of Change 48
 - 1.7.2 The Impact of Communication..... 51
 - 1.7.3 The Nature of Love and Respect..... 52
 - 1.7.4 The Role of Conversation..... 53
 - 1.7.5 Purpose and Identity 54
 - 1.7.6 Human Systems..... 55
- 1.8 Fuzziness, Ambiguity and Imprecision..... 56
 - 1.8.1 Language and Fuzzy Labels 58
 - 1.8.2 Fuzziness and Interpretation..... 61
 - 1.8.3 Negotiated Meaning 62
 - 1.8.4 Meaning from Imprecision: Fuzzy Sets 65
 - 1.8.5 Production of Knowledge..... 67
 - 1.8.5.1 Knowledge of the Constructed 68
 - 1.8.5.2 Construction of the Fuzzy 69
 - 1.8.6 Cognitive Equilibrium..... 72

**CHAPTER 2 MANAGEMENT OF SYSTEMS:
Global Management Paradigm**

- 2.1 Managing in the Global Era: GMP..... 80
 - 2.1.1 Business Process Reengineering (BPR) 83
 - 2.1.1.1 What is BPR? 84
 - 2.1.1.2 Reengineering as Reintegration..... 86
 - 2.1.1.3 Continuous Improvement 87
 - 2.1.1.4 The “10-90 Rule” 88
 - 2.1.1.5 The Process of BPR..... 89
 - 2.1.1.6 Reengineering and Strategy..... 91
 - 2.1.2 Customer Integration (IPM) 92
 - 2.1.2.1 Roots of IPM 93
 - 2.1.2.2 Role of Feedback..... 95
 - 2.1.2.3 The Role of Knowledge..... 96
 - 2.1.2.4 Prosumer..... 97

2.1.2.5 Summary of IPM.....	98
2.1.2.6 Process Ownership	99
2.1.2.7 Planning and Strategy Formation	100
2.1.3 Mass Customization	102
2.1.3.1 Customizing Value Chain.....	104
2.1.3.2 New Realities	105
2.1.3.3 Customer-Triggered Production.....	106
2.1.3.4 Examples of MC.....	107
2.1.3.5 Discarding the Old, Learning the New.....	109
2.1.3.6 Knowledge Beyond Information	110
2.1.4 Elimination of Tradeoffs	111
2.1.4.1 Multiple Objectives and Tradeoffs.....	112
2.1.4.2 Tradeoffs Graphics	113
2.1.4.3 Numerical Tradeoffs.....	115
2.1.4.4 Optimal Portfolio of Resources	118
2.1.5 Intracompany Markets and Amoeba Systems	120
2.1.5.1 Biotic Amoeba Analogy.....	121
2.1.6 Business Kinetics	122
2.2 Forecasting and Foresight	126
2.2.1 Decline of Forecasting.....	127
2.2.2 Reframing Strategy and Knowledge	131
2.3 Self-Service and Do-It-Yourself	133
2.3.1 Key Concepts	134
2.3.2 Evolution of Sectors of Employment	136
2.3.3 Towards Self-Service	137
2.3.4 Work and Leisure	138
2.3.5 Telepresence and Telework.....	141
2.3.6 What is Telework?.....	142
2.3.7 Applications of Telework.....	143
2.3.8 Technical Challenges	145
2.3.9 The Next Best Thing to Being There	146
2.4 MBA Global Education.....	149
2.4.1 MBA and the Schools of Business.....	150
2.4.2 Need for Integration	151
2.4.3 What is the Global E-MBA?	153
2.4.4 Mass-Customized MBA.....	154

2.4.4.1 Faculty	156
2.4.4.2 Online Course Exchange	156
2.4.4.3 Suppliers	157
2.4.4.4 Students	157
2.4.4.5 Support Net	157

**CHAPTER 3 PRODUCING NETWORKS:
Management and Self-Production in Networks**

3.1 New Economy of Networks	159
3.1.1 Evolution of Management Systems	160
3.1.1.1 Summary of the Four Stages	162
3.1.1.2 Stakeholding in Networks	163
3.1.1.3 New Rules	164
3.1.1.4 Biological Imperative	168
3.1.1.5 Evolutionary Approach	170
3.1.1.6 Strategy Paradigm Reversal	171
3.1.2 The New Economy and the Cluetrain Manifesto	176
3.2 High Technology Management	180
3.2.1 Components of Technology	182
3.2.2 Technology Support Net	183
3.2.3 High Technology	185
3.2.4 High-Technology Environment	188
3.2.5 An Example of High Technology	190
3.3 Autopoiesis	192
3.3.1 Machine/Organism Dichotomy	192
3.3.2 Autopoiesis (Self-Production) of Networks	194
3.3.2.1 Organization and Structure	195
3.3.2.2 Concepts and Definitions	195
3.3.2.3 Organizational Embedding	198
3.3.2.4 The Role of Feedback	199
3.3.2.5 Summary of Autopoiesis	200
3.3.2.6 Autopoiesis and Knowledge	202
3.3.3 The Model of Autopoiesis	203
3.3.3.1 Sustainability and Self-Sustainability	205
3.3.4 Regional Enterprise Networks	206

3.3.5 TCG Triangulation Networks.....	208
3.3.6 Eco-Societies and Social Autopoiesis	209
3.3.6.1 Individuals in Networks	210
3.3.6.2 Social Self-Organization	211
3.3.6.3 Detection of Autopoiesis	214
3.3.6.4 Boundaries of Social Systems	216
3.3.6.5 All Autopoietic Systems are Social Systems.....	217
3.3.6.6 Biological Organisms are Social Systems.....	218
3.3.6.7 Communication	219
3.3.6.8 Social Neighborhoods	219
3.3.6.9 Birth-Death Processes	220
3.3.6.10 Evolution	221
3.3.6.11 Closure.....	222
3.3.7 Tectology and its Basic Concepts	223
3.3.7.1 Complexes: Formative Mechanisms	224
3.3.7.2 Complexes: Regulatory Mechanisms.....	225
3.3.7.3 Tectological Implications	225
3.3.7.4 Transformation	226
3.3.7.5 Crises.....	226
3.3.7.6 Language	227

**CHAPTER 4 PRODUCING DECISIONS:
Multiple Criteria, Tradeoffs and Conflicts**

4. 1 Multiple Criteria Decision Making	229
4.1.1 Types of Criteria.....	231
4.1.2 Attributes	231
4.1.3 Objectives.....	233
4.1.4 Goals.....	234
4.1.5 Vector Optimization	237
4.1.6 Scalar Maximization and Weights of Importance	238
4.1.7 Interactive Support	240
4.1.8 Multiple Decision Makers	243
4.2 Concepts of Beauty, Quality and Harmony.....	244
4.2.1 Beauty.....	244
4.2.2 Quality	246

- 4.2.3 Harmony247
- 4.3 Tradeoffs-Free Decision Making248
 - 4.3.1 On the Nature of Tradeoffs249
 - 4.3.2 Examples of Tradeoffs250
 - 4.3.3 New Thoughts on Tradeoffs.....252
- 4.4 Conflict and its Dissolution.....253
 - 4.4.1 Definition of Conflict.....254
 - 4.4.2 Conflict Dissolution259
 - 4.4.3 Significance of Conflict262
 - 4.4.4 Prominent Alternative263
- 4.5 Theory of the Displaced Ideal264
 - 4.5.1 Means and Ends264
 - 4.5.2 Utility Maximization265
 - 4.5.3 Ideal Point268
 - 4.5.4 Displacement of Preferences269
 - 4.5.5 Conclusion273

**CHAPTER 5 ATTAINING WISDOM:
Wisdom of Management Systems**

- 5.1 Management Wisdom of the West276
 - 5.1.1 Henry Ford276
 - 5.1.2 Ross Perot279
 - 5.1.3 George F. Johnson.....280
 - 5.1.4 James F. Lincoln282
 - 5.1.5 Sir Fletcher Jones284
 - 5.1.6 Tomas Bata287
 - 5.1.7 Homer M. Sarasohn288
- 5.2 Bata System of Management289
 - 5.2.1 The System of “Eight Principles”290
 - 5.2.2 Evolution of Bata Co.....291
 - 5.2.3 The Aim of an Enterprise.....297
- 5.3 Bata Management Wisdom298
- 5.4 Wisdom and Culture318

APPENDIX.....	323
(Selected Formal Models)	
A1. Simulation Model of Autopoiesis	325
A2. Eight Concepts of Optimality.....	341
A3. De Novo Programming	353
A4. The External Reconstruction Approach (ERA).....	363
A5. Human Judgment and Regression Analysis	371
A6. Consumer Attitudes Modeling (ADAM)	379
A7. Risk Measures and Portfolio Analysis	393
A8. Formalism of Fuzziness	413
Author's Biography	419
Human Systems Management, the Journal	420
Selected Publications of the Author	422
Bibliography	441
Index	455
