

# CONTENTS

Chapter

1	<b>Introduction</b>	1
---	---------------------	---

## 1: BASIC STUDIES

2	<b>Practical Anatomy and Physiology of the Eye and Orbit</b>	5
	The eye 5. Bony orbit and fasciae 8. Blood supply 11. Extraocular muscles 14. Cranial nerves 15. Autonomic nerves 21. Eyelids 25. Lacrimal glands 27. Lacrimal ducts 28. Conjunctiva 29. Cornea 32. Sclera 34. Lens 35. Vitreous 36. Uvea 36. Retina 40. Visual pathways 42 (371). Retinal physiology 42 (263). Aqueous circulation 42 (547).	
3	<b>Formation of the Eye</b>	43
4	<b>Optics and Refraction</b>	51
	Ophthalmic optics 51. Ametropia and refraction 62. Testing for squint 71. Contact lenses 74. Lasers 75.	

## 2: COMMON OPHTHALMIC PROBLEMS

5	<b>Simple Methods of Eye Examination</b>	77
	Visual acuity 77. Colour vision 81. Visual field 82. Anterior structures 85. Pupil reactions 87. Ophthalmoscopy 88. Intraocular pressure 88.	
6	<b>Painless Impairment of Vision (in the White Eye)</b>	91
	Refractive error 91. Corneal opacities 92. Lens opacities (cataract) 94. Vitreous haemorrhage 111. Retinal detachment 113. Retinal vascular disease 118. Posterior uveitis 129 (179). Neoplasms - choroid 129 (508) - retina 129 (531). Primary open angle glaucoma 129. Optic nerve disease 146. Intracranial visual pathways disease 150.	
7	<b>Painful Impairment of Vision (in the Red Eye)</b>	151
	Ocular trauma 151 - contusion 151 - non perforating 155 -perforating 157 - intraocular foreign body 159. Eyelid laceration 160. Orbital trauma 161 (540). Burns and radiation 161. Keratitis 165 - bacterial 165 - viral 168 - chlamydial 173 - exposure and neuroparalytic 174. Uveitis 176 - anterior 177 - posterior 179 - sympathetic 182 - toxoplasmic 182. Endophthalmitis 185. Acute primary angle closure glaucoma 186. Secondary glaucoma 189 (578).	
8	<b>Red Sticky Eyes (Conjunctivitis)</b>	191
	Conjunctivitis 191 - investigation 192 - bacterial 193 - chlamydial (trachoma) 195 - ophthalmia neonatorum 198 - viral 199 - allergic (hypersensitivity) 201 - toxic 205 - other causes 206.	

Chapter		
9	<b>Watering Eyes</b>	209
	Causes of lacrimation and epiphora 209. Investigation 210. Developmental nasolacrimal duct obstruction 211. Acquired epiphora 211. Trauma 211. Punctum malposition 212. Chronic canaliculitis 212. Dacryocystitis 212. Lacrimal sac carcinoma 213. Treatment of nasolacrimal duct obstruction 213.	
10	<b>Dry Eyes</b>	217
	Keratoconjunctivitis sicca 217. Filamentary keratitis 217. causes of keratoconjunctivitis sicca 218. Lacrimal gland tumours 219 (466). Lacrimal gland inflammation 219 (465). Treatment of keratoconjunctivitis sicca 219.	
11	<b>Squinting Eyes (Strabismus) Disorders of Ocular Motility</b>	221
	Definitions 221. Esotropia 224. Exotropia 232. 'A' and 'V' phenomena 234. Principles of surgical treatment 236. Paralytic squint 239. Head postures 241. Examination of paralytic squint 243. Cranial nerve palsies - sixth 246 - third 249 - fourth 252. Supranuclear disorders of ocular motility 254 (371).	
<b>3: EXAMINATION OF THE EYES</b>		
12	<b>Examination of Structure</b>	255
	Loupe 255. Slit lamp microscope 255. Ophthalmoscope (direct) 256. Ophthalmoscope (indirect) 260.	
13	<b>Examination of Function</b>	263
	Dark adaptation 263. Colour vision 265. Parallel visual pathways 267. Blue on yellow perimetry 267. Motion sensitivity perimetry 268. Contrast sensitivity 269. Frequency doubling perimetry 272. Visual acuity 273 (77). Visual field 273. Kinetic perimetry 274. Static perimetry 276. Automated perimetry 277. Interpretation of visual field records (Progressor) 279. Significant patterns of visual field loss 282. Ocular motility 285. (71, 85, 229, 239). Pupils 285 (86, 214) Electronic objective visual tests EOG, ERG, PERG, VER, 285. Ocular blood flow 288.	
<b>4: SYSTEMIC OPHTHALMOLOGY</b>		
14	<b>Cardiovascular Conditions</b>	289
	Fluorescein angiography 289. Retinal vascular changes 290. Arteriosclerosis 293. Hypertension 294.	
15	<b>Blood Diseases</b>	297
	Sickle cell 297. Polycythaemia 300. Vitamin B12 deficiency 300. Leukaemia 301. Lymphoma 302. Types of lymphocyte 302. Multiple myeloma 303. Waldenstrom's macroglobulinaemia 303. (Histiocytosis X 304).	

Chapter			
16	<b>Endocrine Disorders</b>		305
	Thyrotoxicosis 305. Toxic nodular goitre 305. Graves' disease 307. Management of endocrine exophthalmos 310. Diabetes mellitus 312 - lens changes 313 (98) - retinal changes 313. Background diabetic retinopathy 314. Diabetic maculopathy 315. Focal laser photocoagulation of exudative retinopathy 315. Proliferative diabetic retinopathy 315. Rubeosis iridis 316. Laser pan-retinal photocoagulation for proliferative retinopathy 316. Screening for diabetic retinopathy 317.		
17	<b>Infections and Infestations and Nutritional Deficiencies</b>		319
	Bacteria 319. Virus 329 - HIV/AIDS 333. Chlamydia 338. Rickettsiae 338. Fungi 339. Protozoa 341. Metazoa 342. Parasitic cysts 349. Nutritional deficiency 351 - Vitamin A 352 - Vitamin B 354 - Vitamin C 355 - Vitamin D 355.		
18	<b>Systemic Immune Disorders (Collagen Diseases)</b>		357
	Rheumatoid arthritis 357. Still's disease and JCA 359. Sjögren's syndrome 359. Ankylosing spondylitis 359. Reiter's disease 360. Behçets disease 360. Systemic lupus erythematosus 363. Polyarteritis nodosa 364. Scleroderma 364. Dermatomyositis 365. Sarcoidosis 365. Wegener's granulomatosis 368. Stevens Johnson syndrome 369. (203, 481). Giant cell (temporal) arteritis 369 (124). Myasthenia gravis 369. Graves' disease 370 (307). Diabetes melitus 370 (312).		
19	<b>Neurology</b>		371
	Optic nerve 372 - pressure effects 376. - meningioma 380, 381. Optic neuropathy - inflammatory 383 - toxic 383 - nutritional 384 - vascular 384. Optic atrophy 387. Optic chiasma 390 - pituitary 391 - craniopharyngioma 392. Optic tracts 394. Lateral geniculate bodies 395. Optic radiations 395. Visual cortex 395. Cerebral aneurysms 397. Migraine 399. Cerebrovascular insufficiency 400. Supranuclear disorders of ocular motility 401. Myopathies 406. Nystagmus 407. Pupil reflex arcs 414. Myotonic pupil 417. Horner's syndrome 418. Argyll-Robertson pupil 420. Afferent pupil defect testing 420.		
20	<b>Congenital Abnormalities and Genetic Disorders</b>		423
	Molecular genetics 423. Intracranial infections 424. Retinopathy of prematurity 425. Chromosomal abnormalities 425. Genetically determined congenital malformations 426. Genetically determined ocular conditions 430. Inherited disorders with systemic and ocular complications 431 - pigmentary 431 (520) - lipid 431 - amino acid 432 - connective tissue 434 - mucopolysaccharide 435 - carbohydrate 436 - copper 436. Phakomatoses 436. Developmental abnormalities of the orbit 439 (543).		
21	<b>Functional Disorders</b>		441
	Functional visual loss 441. Illusions and hallucinations 444. Functional disorders of the lids 444. Self inflicted injuries 445.		

## Chapter

**5: REGIONAL OPHTHALMOLOGY**

- 22 **Eyelids** 447  
 Entropion 447. Ectropion 448. Blepharoptosis 450. Eyelid retraction 452. Inflammatory conditions 453. Cystic lesions 454. Epithelial lesions 455. Haemangiomas 458. Kaposi's sarcoma 459 (336). Neurofibroma 459 (437, 538). Pigmented tumours 460, Eyelid lacerations 461 (160). Congenital lid abnormalities 461.
- 23 **Lacrimal Apparatus** 465  
 Lacrimal gland swelling 465 - dacryoadenitis 465 - tumours 466. Lacrimal ducts 467 - congenital anomalies 467 - canaliculitis 468 (212) - dacryocystitis 468 (212) - lacerations 468.
- 24 **Conjunctiva** 469  
 Degenerations 469. Pigmented tumours 472. Lymphomas 474. Squamous cell tumours 475. Kaposi's sarcoma 476 (336). Cysts and dermoids 476.
- 25 **Cornea and Sclera** 477  
 Congenital abnormalities 477. Inflammation (keratitis) (i) infective 477 - bacterial 477 (165, 319) - viral 477 (168, 199, 329) - fungal 477 (339) - chlamydial (trachoma) 477 (173, 195, 338) (ii) non-infective 478 - Mooren's ulcer and Terrien's degeneration 478 - phlyctenular 205 (324) - filamentary 479 - superficial punctate 479 - superior limbic 480 - Thygeson's keratitis 481. Conditions secondary to conjunctival disease 481 - ocular cicatricial pemphigoid 481 - Stevens-Johnson syndrome 481 (203). Pterygium 482 (469), Abnormal pigmentation 482. Corneal dystrophies 483. Arcus 487. Band shaped keratopathy 487. Corneal grafts 488. Sclera 493 - staphyloma 493 - scleritis 494 - injuries 494 (151).
- 26 **Lens** 495  
 Principles and complications of cataract surgery 495. Lens displacements 499 - trauma 152, 153 - homocystinuria 433. Marfan's syndrome 434.
- 27 **Vitreous** 501  
 Vitreous collapse (detachment) 501. Pre-retinal membranes 502. Vitreous haemorrhage 503 (111). Vitreous degenerations 503. Vitreous surgery 504.
- 28 **Uvea** 507  
 Uveitis 507 (176). Injuries 507 (151). Serous choroidal detachment 507. Uveal tumours 508 - melanocytic 508 - choroidal haemangiomas 514. Uveal degenerations 515. Anterior segment dysgenesis 516.

Chapter		
29	<b>Retina</b>	517
	Assessment of retinal function 517. Disorders of the retinal vascular system 517. Retinal vasculitis 518. Retinal infections 519. Retinal disorders associated with haemorrhage and blood diseases 519. Retinal degenerations 519 - pigmentary 520 - variants 521. Primary macular degenerations 522. Phakomatoses 524 (436). Cerebro-macular degenerations 524. Fluid separation of retina 525. Retinal detachment 525 - rhegmatogenous 525 (113) - exudative 526 - traction 526. Cystic conditions - retinoschisis - cystoid macular degeneration 526. Retinal separation with central choroido-retinal degeneration 528 - central serous retinopathy 528 - pigment epithelial detachment 529 - disciform degeneration of the retina 529. Retinal injuries 531. Toxic disorders of the retina 531 (620 et seq) Retinoblastoma 531.	
30	<b>Orbit</b>	533
	Evaluation of orbital disease 533. Thyroid disease 535. Orbital inflammation - infective 535 - pseudo tumour 535 - Wegener's granulomatosis 535 (368). Lymphoma 536, Orbital mass lesions - mucocele 537 - dermoid 537 (429, 455, 476). Tumours - vascular 537 - neural 538 - rhabdomyosarcoma 539 - osteoid 539 - local spread 539 - metastases 540. Fractures 540 - external 540 - blow out 541. Orbital developmental abnormalities 543, craniofacial synostoses 543 - clefting syndromes 545 - branchial arch syndromes 545.	
31	<b>Disorders Associated with the Level of Intraocular Pressure</b>	547
	Glaucoma and intraocular pressure 547. Primary angle closure glaucoma 550. Primary open angle glaucoma 551. Nitric oxide, endothelin, glutamate, apoptosis as control systems 553. Neuroprotection 554. Tonometry 555. Ophthalmoscopy 560. Perimetry 565. Gonioscopy 567. Epidemiology and genetics of glaucoma 569. Clinical features and genetics of developmental glaucoma 572 - of primary angle closure glaucoma 574 - of primary open angle glaucoma 575 (186) - of secondary glaucoma 578. Hypotony 583.	
	<b>6: THERAPEUTICS AND IATROGENIC DISORDERS</b>	
32	<b>Therapeutics Part 1</b>	585
	Routes of administration 585. Mydriatics and cycloplegics 588. Miotics 592. Carbonic anhydrase inhibitors 596. Osmotic agents 597.	
33	<b>Therapeutics Part 2</b>	599
	Therapeutic agents - antibacterial 599 - antiviral 603 - antifungal 606 - antiprotozoal 606 (339) - anti-inflammatory 606 - local anaesthetic 611 - other agents 614.	
34	<b>Iatrogenic Disorders</b>	617
	Systemic toxicity of ocular therapeutic agents 617. Drugs inducing ocular adverse reactions 619. Drugs affecting intraocular pressure 623.
