

CONTENTS

PART I: A REPORT ON THE PROCEEDINGS

| | |
|---|-----------|
| CHAPTER 1: A HISTORY WORTH PRESERVING | 3 |
| Opening Remarks | 5 |
| <i>Senator Jeff Bingaman, New Mexico</i> | |
| Opening Remarks | 9 |
| <i>Dr. Everet H. Beckner</i> | |
| Preserving the History of the Manhattan Project | 13 |
| <i>Cynthia C. Kelly</i> | |
| CHAPTER 2: THE MANHATTAN PROJECT — A MILLENNIAL TRANSFORMATION | 15 |
| The Atomic Bomb in the Second World War | 17 |
| <i>Richard Rhodes</i> | |
| The Manhattan Project: An Extraordinary Achievement of the “American Way” | 31 |
| <i>Stephane Groueff</i> | |
| CHAPTER 3: THE ALLIES AND THE ATOMIC BOMB | 39 |
| A Tale of Two Documents | 41 |
| <i>Andrew Brown</i> | |
| A Footnote on Hiroshima and Atomic Morality: Conant, Niebuhr, and an “Emotional” Clergyman, 1945–46 | 47 |
| <i>James G. Hershberg</i> | |
| A Los Alamos Beginning | 53 |
| <i>Kai Bird</i> | |
| <i>Martin Sherwin</i> | |

| | |
|---|------------|
| CHAPTER 4: THE MILITARY AND SCIENCE IN THE CRUCIBLE OF WAR | 61 |
| General Leslie R. Groves and the Scientists <i>Robert S. Norris</i> | 63 |
| Science in the Service of the State: The Cautionary Tale of Robert Oppenheimer <i>Gregg Herken</i> | 69 |
| Leo Szilard: Baiting Brass Hats <i>William Lanouette</i> | 73 |
| CHAPTER 5: SPEAKING FROM EXPERIENCE | 79 |
| SEDs at Los Alamos: A Personal Memoir <i>Benjamin Bederson</i> | 81 |
| Some Experiences at the Met. Lab and What Could Be Learned from a Highly Successful and Challenging Project <i>Jerome Karle</i> | 89 |
| My First Professional Assignment <i>Isabella Karle</i> | 93 |
| Triumph and Tragedy: The Odyssey of J. R. Oppenheimer — A Personal Perspective <i>Maurice M. Shapiro</i> | 97 |
| CHAPTER 6: LESSONS OF THE MANHATTAN PROJECT FOR THE 21ST CENTURY | 101 |
| Then and Now <i>Maxine Singer</i> | 103 |
| The Manhattan Project: Qualitative or Quantitative Change? <i>Stephen Younger</i> | 107 |
| Expertise and Independence: The Role of the Science Advisor <i>Richard L. Garwin</i> | 111 |

| | |
|--|------------|
| The Future of Nuclear Deterrence <i>Richard Rhodes</i> | 117 |
| CHAPTER 7: CLOSING REFLECTIONS | 121 |
| Reflections on the Manhattan Project: Consequences and Repercussions <i>Dr. James Schlesinger</i> | 123 |
| APPENDIX A: PROGRAM | 131 |
| APPENDIX B: PARTICIPANTS | 135 |
| | |
| PART II: A PLAN FOR PRESERVING THE MANHATTAN PROJECT | |
| PRESERVING AMERICA: A STRATEGY FOR THE MANHATTAN PROJECT | 141 |
| Evaluation of the Manhattan Project Properties Basis for Recommendations | 143 147 |
| CROSS-CUTTING RECOMMENDATIONS | 148 |
| 1. Special Resource Study for National Park Units | 148 |
| 2. Oral Histories of Manhattan Project Veterans | 149 |
| 3. Preservation and Storage of Equipment, Artifacts and Documents | 149 |
| PRESERVATION STRATEGIES FOR THE MANHATTAN PROJECT: TWO OPTIONS | 150 |
| The Essential Manhattan Project (Option A) | 151 |
| <i>Oak Ridge: Isotope Separation and Reactor Operations</i> | 151 |
| <i>Hanford: Plutonium Production</i> | 153 |
| <i>Los Alamos: Designing, Building and Testing the Bomb</i> | 155 |
| <i>The Trinity Site</i> | 156 |

| | |
|---|-----|
| The Enriched Manhattan Project (Option B) | 156 |
| <i>Oak Ridge</i> | 157 |
| <i>Hanford</i> | 157 |
| <i>Los Alamos</i> | 158 |
| <i>Trinity Site</i> | 158 |
| <i>University of Chicago</i> | 159 |
| <i>University of California, Berkeley</i> | 159 |
| <i>Columbia University</i> | 159 |

APPENDIX A: DESCRIPTION OF MANHATTAN PROJECT PROPERTIES **161**

| | |
|---|-----|
| 1. Oak Ridge, Tennessee | 161 |
| <i>K-25 Footprint (Isotope Separation)</i> | 161 |
| <i>Roosevelt Cell (Isotope Separation)</i> | 162 |
| <i>K-29 as Described in the O.R. White Paper (Isotope Separation)</i> | 162 |
| <i>Beta 3 Electromagnetic Separation Racetracks at Y-12 (Isotope Separation)</i> | 162 |
| <i>Building 9731, Known as the Y-12 Pilot Plant (Isotope Separation and Research)</i> | 163 |
| <i>X-10 Graphite Reactor (Reactor Operations)</i> | 163 |
| <i>American Museum of Science and Energy</i> | 164 |
| 2. Hanford, Washington | 164 |
| <i>B Reactor (Fuel Irradiation)</i> | 164 |
| <i>T Plant (Chemical Separation)</i> | 166 |
| <i>T Plant Exhaust Stack (Chemical Separation)</i> | 167 |
| <i>Process Control Laboratory (Chemical Separation)</i> | 167 |
| <i>Concentration Building (Chemical Separation)</i> | 167 |
| <i>Plutonium Isolation Building (Chemical Separation)</i> | 168 |
| <i>Test Pile/Hot Cell Verification Building (Research and Development)</i> | 168 |
| <i>Separations Laboratory (Research and Development)</i> | 168 |
| <i>Radiochemistry Laboratory (Research and Development)</i> | 168 |
| <i>Fresh Metal Storage Building (Fuel Manufacturing)</i> | 169 |

| | |
|---|------------|
| <i>Metallurgical Engineering Laboratory (Fuel Manufacturing)</i> | 169 |
| <i>Metal Fuels Fabrication Facility (Fuel Manufacturing)</i> | 169 |
| <i>River Pump House (Fuel Irradiation)</i> | 169 |
| <i>Lag Storage Building (Fuel Irradiation)</i> | 170 |
| <i>Plutonium Vaults (Product Storage)</i> | 170 |
| 3. Los Alamos, New Mexico | 170 |
| <i>“Gun Site” (Weapons Research and Development)</i> | 171 |
| <i>“V Site” (Weapons Research and Development)</i> | 171 |
| <i>Concrete Bowl (Weapons Research and Development)</i> | 172 |
| <i>Louis Slotin Accident Building (Biomedical/Health Physics)</i> | 172 |
| <i>Quonset Hut TA-22-1 (Weapons Research and Development)</i> | 172 |
| <i>East Guard Tower (Security)</i> | 173 |
| <i>Pond Cabin (Administrative and Social History)</i> | 173 |
| <i>Trinity Test Site (Weapons Research and Development)</i> | 173 |
| FEATURE ARTICLE: THE FRISCH–PEIERLS MEMORANDUM | 175 |
| Memorandum on the Properties of a Radioactive Super-bomb | 177 |
| <i>Otto R. Frisch</i> | |
| <i>Rudolf Peierls</i> | |
| INDEX | 181 |
