Foreword v

Preface ix

Acknowledgments xi

Chapter 1. **Dynamical Systems** 1

Dynamical Systems 4

Simple or Complex? 5

The Gorilla that Walks Through the Basketball Game 6

Trees Full of Wind 8

Studying the Swallow's Flight 9

A Moment of Extreme Complexity 10

The Traveling Salesman's Problem is NP-Difficult 11

Linear or Nonlinear? 12

Linear Systems 13

Ark for the 22nd Century 14

The Line 16

Nonlinear Function 18

Grain of Sand 21

Clockwork 23

The Pillars of Creation 24

Chapter 2. **Viewing Dynamics** 25

Where Do We Go Next? (Time Series) 26

Walking to Work 26

The Poets Read for Three Hours in the Grape Arbor 28

The Dog Gets Loose 29

Lying in Bed Flipping the Remote Control Through Thirty Channels 30
Summer Contra 33
Succession 34
Suddenly the Sumac 35
November Canoeing 36
Going Forth 38

Have We Been Here Before? (State Space) 39

New Year's Eve Banff, The Woods 40
Chickadees at Anvil Lake 41
Spring Break-Up 42
The Gatherers of Stories 44
Northern Pike 45
Fields 46
Eopsaltria Australis: Dawn Singer 48

Chapter 3. Where It All Ends 49

Attractors 50

Stillness (Fixed Points) 52

The Fixed Point 52
The Science of Life 54
The Good Death 57
Missing Cam 58
In the Time That is Left 59
Quantum Fortune Cookie 60
Train Wreck 61

Endless Repetition (Limit Cycles) 62

When You Fall Into Dreamless Sleep 62
Flight Cage, St. Louis Zoo 63
What's the Bear Doing In Your Poem? 64
Hibernation 65

Doughnuts and Inner Tubes (Tori) 66

The Torus 66

Strange Attractors (Chaos) 67

A Laser Light and Four Stacked Billiard Balls in a Cube of Mirrors 68
Eating a Banana at the Cottage and Considering Einstein's Claim 69
Space Shot 70

Chapter 4. Routes to Chaos 71

Fork in the Road (Bifurcations) 72

Bifurcations 73

Migration 74
First Frost 76
What We Don't Notice in Winter 77
12/12 Madison 78
12/13 Madison 80
You Leave and I Miss You 81
Flood 82
The Thermodynamics of Water 83
Moving In 84

Skipping a Beat (Period-doubling) 87

The Route to Chaos 88

On the Edge of Chaos 90

Sand Barren 91

Tree 94

Self-Organized Criticality Among the Chaos Theorists 96

Chapter 5. Images of Chaos 97

Chaos or Noise? 98

The Art of Simulated Annealing 99

The Trajectory of a Single Particle 100

Dividing by Zero 102

The Composers Discover Chaos 104

Strange Attractors 106

Strange Attractors 107

The Volatile Wife 109

Stretching and Moving (Iterated Function Systems) 110

The Nearest Neighbor Rules 110

Stockpiling at Y-12 112

Escaping the Attractor (Generalized Julia Sets) 113

Basin of Attraction 114

Escaping the Mandelbrot Set 116

Chapter 6. Chaos and Predictability 119

Time's Arrow 120

Hysteresis 121

Time, Now 122

Before the Dog Saw a Squirrel 124

Canoeing, Early April 125

Bringing Order Out of Chaos 127

One Line of Clouds on the Horizon 128

The Riverbank 129

The Avalanche Lilies of Paradise 130

The Butterfly Effect (Sensitive Dependence) 131

The Slough of Time 132

Backyard 134

From the Union Terrace 135

Explaining Those Disconnected Connections 136

Arriving 138

Chapter 7. **Truth and Beauty 139**

Fractals 140

Fractal Dimensions 140

Jackson Pollock Paintings Have a Fractal Dimension of 1.7 143

On The Shifting Narrative Point-of-View 144

Mirror Images 146

Late 146

Every Lake a Loon, an Eagle 148

I Join the Women of Churchill College 149

The Woman Who Remembered Numbers 150

Flower Petals 152

Ranunculi 152

Karen 154

Finding a Way 156

Appendix for the Mathematically Inclined 159

Index of Images 163

Test Your Understanding 165

For Further Reading 171

Contents of the CD-ROM 172

About the Authors 173

Index 175
