

CONTENTS

Preface	vii
Discovering, Modeling, and Re-enacting Open Source Software Development Processes: A Case Study <i>Chris Jensen, Walt Scacchi</i>	1
Software Process Dynamics: Modeling, Simulation and Improvement <i>Mercedes Ruiz, Isabel Ramos, Miguel Toro</i>	21
Software Process Simulation with System Dynamics — A Tool for Learning and Decision Support <i>Dietmar Pfahl, Günther Ruhe, Karl Lebsanft, Michael Stupperich</i>	57
High Level Software Project Modeling with System Dynamics <i>Márcio De Oliveira Barros, Cláudia Maria Lima Werner, Guilherme Horta Travassos</i>	91
People-Oriented Capture, Display, and Use of Process Information <i>Jens Heidrich, Jürgen Münch, William Riddle, Dieter Rombach</i>	121
Requirements and Validation of the E3 Process Modeling System <i>Letizia Jaccheri</i>	181
Index	203
