

## Contents

Preface	v
Chapter 1	
Modeling Income Distributions Using Elevated Distributions on a Bounded Domain	1
<i>J.R. van Dorp and S. Kotz</i>	
Chapter 2	
Making Copulas Under Uncertainty	27
<i>C. Garcia Garcia, J.M. Herrerias Velasco and J.E. Trinidad Segovia</i>	
Chapter 3	
Valuation Method of the Two Survival Functions	55
<i>M. Franco Nicolás, R. Herrerías Pleguezuelo, J. Callejón Céspedes and J.M. Vivo Molina</i>	
Chapter 4	
Weighting Tools and Alternative Techniques to Generate Weighted Probability Models in Valuation Theory	67
<i>M. Franco Nicolás and J.M. Vivo Molina</i>	
Chapter 5	
On Generating and Characterizing Some Discrete and Continuous Distributions	85
<i>M.A. Fajardo Caldera and J. Pérez Mayo</i>	

Chapter 6 Some Stochastic Properties in Sampling from the Normal Distribution	101
<i>J.M. Fernández Ponce, T. Gómez Gómez, J.L. Pino Mejías and R. Rodríguez Griñolo</i>	
Chapter 7 Generating Function and Polarization	111
<i>R.M. García Fernández</i>	
Chapter 8 A New Measure of Dissimilarity Between Distributions: Application to the Analysis of Income Distributions Convergence in the European Union	125
<i>F.J. Callealta Barroso</i>	
Chapter 9 Using the Gamma Distribution to Fit Fecundity Curves for Application in Andalusia (Spain)	161
<i>F. Abad Montes, M.D. Huete Morales and M. Vargas Jiménez</i>	
Chapter 10 Classes of Bivariate Distributions with Normal and Lognormal Conditionals: A Brief Revision	173
<i>J.M. Sarabia, E. Castillo, M. Pascual and M. Sarabia</i>	
Chapter 11 Inequality Measures, Lorenz Curves and Generating Functions	189
<i>J.J. Núñez Velázquez</i>	
Chapter 12 Extended Waring Bivariate Distribution	221
<i>J. Rodríguez Avi, A. Conde Sánchez, A.J. Sáez Castillo and M.J. Olmo Jiménez</i>	

Chapter 13	
Applying a Bayesian Hierarchical Model in Actuarial Science: Inference and Ratemaking	233
<i>J.M. Pérez Sánchez, J. M. Sarabia Alegría, E. Gómez Déniz and F.J. Vázquez Polo</i>	
Chapter 14	
Analysis of the Empirical Distribution of the Residuals Derived from Fitting the Heligman and Pollard Curve to Mortality Data	243
<i>F. Abad Montes, M.D. Huete Morales and M. Vargas Jiménez</i>	
Chapter 15	
Measuring the Efficiency of the Spanish Banking Sector: Super-Efficiency and Profitability	285
<i>J. Gómez García, J. Solana Ibáñez and J.C. Gómez Gallego</i>
