

# Contents

<b>Preface</b>	<b>vii</b>
<b>Chapter 1. Getting Started</b>	<b>1</b>
1.1 Scientific Jargon .....	5
1.2 Nucleic Acids, Proteins, Carbohydrates & Lipids .....	6
1.3 Biotechnology.....	9
1.4 Experimental Organisms .....	10
1.5 My Example of a Gene .....	12
1.6 What to Expect .....	17
1.7 Take-Away Message .....	20
<b>Chapter 2. Life: Cells, Organisms &amp; Evolution</b>	<b>21</b>
2.1 In the Beginning .....	21
2.2 Metabolism .....	25
2.3 Cells.....	27
2.4 Viruses.....	34
2.5 Protein Interactions.....	35
2.6 Evolution .....	36
2.7 The Concept of Genes .....	43
2.8 Take-Away Message .....	45
<b>Chapter 3. How Biological Molecules Are Put Together</b>	<b>48</b>
3.1 Nucleic Acids: DNA & RNA .....	49
3.2 Proteins.....	54
3.3 Carbohydrates.....	65
3.4 Glycosaminoglycans (GAGs).....	69
3.5 Lipids.....	71
3.6 Cell Membranes.....	72
3.7 Take-Away Message .....	74

<b>Chapter 4. What Is a Gene?</b>	<b>76</b>
4.1 DNA Replication.....	77
4.2 Genes and the Genome.....	79
4.3 Mutations.....	89
4.4 Cell Division.....	95
4.5 Sex Determination.....	98
4.6 Transcription and Translation.....	98
4.7 Mitochondria and Chloroplasts.....	101
4.8 Take-Away Message.....	101
<b>Chapter 5. How Do Genes Work?</b>	<b>103</b>
5.1 Gene Structure.....	105
5.2 Regulating Gene Expression.....	108
5.3 Chromatin Structure.....	117
5.4 How Genes Are Studied.....	122
5.5 Development of Body Shape.....	125
5.6 Viruses.....	128
5.7 The New World of RNA.....	129
5.8 How Sex Works.....	132
5.9 Take-Away Message.....	138
<b>Chapter 6. Genetic Engineering</b>	<b>141</b>
6.1 Working with DNA.....	142
6.2 Gene Cloning.....	150
6.3 Protein Expression Systems.....	154
6.4 Transgenic Animals.....	158
6.5 Transgenic Plants.....	160
6.6 Gene Modifications.....	163
6.7 Take-Away Message.....	167
<b>Chapter 7. DNA Amplification &amp; Analysis</b>	<b>168</b>
7.1 Polymerase Chain Reaction (PCR).....	168
7.2 DNA Sequencing.....	171
7.3 Mutagenesis by PCR.....	174
7.4 SNP and STR Genetic Markers.....	175
7.5 Microarrays.....	180
7.6 Take-Away Message.....	183
<b>Chapter 8. Genes in the Natural World</b>	<b>184</b>
8.1 Natural Gene Flow.....	185
8.2 Junk DNA.....	187
8.3 Geographical Gene Flow: Animals.....	190
8.4 Geographical Gene Flow: Exotic Plants.....	193

8.5 GM Plants .....	194
8.6 GM Animals .....	196
8.7 Gene Transfer from Plants to Animals .....	199
8.8 Bioleaching of Metals in Mining .....	200
8.9 Genes in Remediation .....	201
8.10 Take-Away Message .....	203
<b>Chapter 9. People &amp; Our Genes</b> .....	<b>204</b>
9.1 Our History .....	204
9.2 Human Migration .....	206
9.3 Race .....	209
9.4 Red Hair .....	211
9.5 Genetic Profiling .....	213
9.6 Genetic Disease .....	215
9.7 Sex-Linked Genetic Disease .....	217
9.8 Mutations in Haemoglobin .....	219
9.9 Cystic Fibrosis .....	223
9.10 Gene Therapy .....	226
9.11 RNA Inhibition (RNAi) .....	228
9.12 Multi Gene Effects: Asthma .....	229
9.13 Take-Away Message .....	233
<b>Chapter 10. Genetics of Some of Our Pathogens</b> .....	<b>235</b>
10.1 Tuberculosis .....	236
10.2 The Pasteurella Group .....	243
10.3 Influenza .....	245
10.4 Take-Away Message .....	252
<b>Chapter 11. Biotechnology &amp; Sustainable Agriculture</b> .....	<b>254</b>
11.1. Improved Crops .....	255
11.2 Growing or Eating GM .....	256
11.3. Sustainable Agriculture .....	257
11.4 Certified Organic Farming .....	258
11.5 Reliability and Profitability of Food Production .....	262
11.6 Three Elements of Profitable Farming .....	263
11.7 Plant Nutrition .....	265
11.8 Pest Management .....	268
11.9 Pesticide Resistance .....	270
11.10 Traditional Breeding & Biotechnology .....	271
11.11 Take-Away Message .....	275

<b>Chapter 12. GMOs in Agriculture</b>	<b>276</b>
12.1 Seed Fertilisation and Viability .....	277
12.2 Herbicide Resistance .....	282
12.3 Insect Resistance .....	286
12.4 Phosphate Uptake .....	288
12.5 Nitrogen Metabolism .....	290
12.6 Resistance to Abiotic Stress.....	295
12.7 Disease Resistance.....	300
12.8 Golden Grains.....	302
12.9 Iron Enriched Plants .....	305
12.10 Improved Vegetables .....	307
12.11 Forest Trees .....	309
12.12 Take-Away Message .....	313
<b>Chapter 13. Patents, Regulations &amp; the Future</b>	<b>315</b>
13.1 Patenting Genes .....	317
13.2 Patenting Organisms .....	319
13.3 Testing Drugs and Food .....	321
13.4 Tomorrow’s Natural World .....	323
13.5 Health in the Future .....	325
13.6 GM Food. A World Snapshot.....	326
13.7 A Little Dream.....	332
<b>Glossary</b>	<b>335</b>
<b>Index</b>	<b>341</b>
