

CONTENTS

| | |
|--|-----------|
| Preface | v |
| Part A Mathematics and Statistics in Society | 1 |
| Estimating Internet Access for Welfare Recipients in Australia <i>A. Daly & R. Lloyd</i> | 3 |
| Two Classification Methods of Individuals for Educational Data and an Application <i>A. Hayashi</i> | 11 |
| Measurement of Skill and Skill Change <i>R. Kelly & P. E. T. Lewis</i> | 17 |
| Some Comments about Issai Schur (1875–1941) and the Early History of Schur Complements <i>S. Puntanen & G. P. H. Styan</i> | 28 |
| Part B Applications of Statistics | 67 |
| Estimating the Number of SARS Cases in Mainland China in 2002-3 <i>J. Gani</i> | 69 |
| Using Statistics to Determine the Effectiveness of Prescribed Burning <i>K. J. King & J. Chapman</i> | 73 |

A Fair Tennis Scoring System for Doubles in the Presence of Sun and Wind Effects – An Application of Probability 89
G. Pollard

Part C Theoretical Issues in Probability and Statistics 97

Perturbed Markov Chains 99
J. J. Hunter

Matrix Tricks for Linear Statistical Models: A Short Review of our Personal Top Fourteen 113
J. Isotalo, S. Puntanen & G. P. H. Styan

On Influence Diagnostics in Multivariate Regression Models under Elliptical Distributions 129
S. Liu

A Necessary Condition for Admissibility of Nonnegative Quadratic Estimators of Variance Components when the Moments are not Necessarily as under Normality 142
C.-Y. Lu, Y. Gao & B. Zhang

Small-Sample Performance of Robust Methods in Logistic Regression 152
S. Nargis & A. Richardson

On the Asymptotic Distribution of the ‘Natural’ Estimator of Cronbach’s Alpha with Standardised Variates under Non-normality, Ellipticity and Normality 167
H. Neudecker

On the Approximate Variance of a Nonlinear Function of Random Variables 172
H. Neudecker & G. Trenkler

On Oblique and Orthogonal Projectors 178
G. Trenkler

| | |
|---|------------|
| Fiducial Inference of Means and Variances from Normal Populations under Order Restrictions | 192 |
| <i>B. X. Zhang, X. Z. Xu & X. Li</i> | |
| Part D Probabilistic Models in Economics and Finance | 209 |
| When Large Claims are Extremes | 211 |
| <i>R. Gay</i> | |
| Shrinkage Estimation of Gini Index | 234 |
| <i>R. Ghori, S. E. Ahmed & A. A. Hussein</i> | |
| On the Problem of Discriminating between the Tails of Distributions | 246 |
| <i>C. C. Heyde & K. Au</i> | |
| Part E Numerical Methods | 259 |
| An Approximate Maximum <i>a Posteriori</i> Method with Gaussian Process Priors | 261 |
| <i>M. Hegland</i> | |
| Data Extraction for Improved Prediction Outcomes in Organ Transplantation — A Hybrid Approach | 276 |
| <i>F. Shadabi et al.</i> | |
| Mining Multiple Models | 289 |
| <i>G. J. Williams</i> | |
| Part F Abstracts without Papers | 297 |
| Ranked Set Sampling: A Simple Idea of Great Use | 299 |
| <i>Z. Chen</i> | |
| Properties of Nearest-neighbour Classifiers | 300 |
| <i>P. Hall</i> | |

| | |
|--|-----|
| Large Covariance Matrices: Estimation and Inference in High Dimensions <i>I. M. Johnstone</i> | 301 |
| Bootstrapping in Clustered Populations <i>A. H. Welsh</i> | 302 |
| On the Linear Aggregation Problem in the General Gauss-Markov Model <i>H. J. Werner</i> | 303 |
| Author Index | 305 |
| Subject Index | 307 |
