Preface	v
1 Introduction to Modern Asset Pricing	1
1.1 A Brief History of Modern Asset Pricing Models	1
1.2 The Equity Premium Puzzle	5
2 A Structural Theory of Asset Pricing	13
2.1 Construction of Continuous Linear Pricing Functionals	13
2.2 The Structural Theory of Asset Pricing – Part I	17
2.3 Is the Equity Premium Puzzle Really a Puzzle or not a Puzzle?	22
2.4 Conclusions and Summary	28
3 Algebra of Stochastic Discount Factors	31
3.1 Symmetric Theorem of Asset Pricing	31
3.2 Compounding Asset Pricing Models	34
3.3 Compression of Asset Pricing Models	41
3.4 Decomposition of Errors in Asset Pricing Models	46
3.5 Empirical Analysis of the Asset Pricing Models	51
3.5.1 The data set and utility forms	51
3.5.2 Three sources of pricing errors	52
3.5.3 Decomposition of the pricing errors	54
3.6 Conclusions	55
4 Investment and Consumption in a Multi-period Framework	57
4.1 Review of Merton’s Asset Pricing Model	57
4.2 Optimal Decisions of Investment and Consumption	60
4.2.1 Martingale approach to the asset pricing model with- out consumption habit constraints	60

4.2.2	Martingale approach to the asset pricing model with consumption habit	61
4.3	Optimal Investment Behavior	64
4.4	Conclusions	69
	Bibliography	71
	Index	75
