

Contents

Foreword	xi
Part 1: Crude Oil Markets	1
1 Unit Root Behavior in Energy Futures Prices	7
1.1 Introduction	7
1.2 Data	8
1.3 Empirical Evidence	8
1.3.1 Autocorrelation Based Tests	8
1.3.2 Univariate Tests for Unit Roots	11
1.4 Conclusions	14
2 Rational Expectations, Risk, and Efficiency in Energy Futures Markets	15
2.1 Introduction	15
2.2 Theoretical Foundations	16
2.3 Data	18
2.4 Regression and Cointegration Tests	20
2.5 Conclusion	22
3 Maturity Effects in Energy Futures	23
3.1 Introduction	23
3.2 Data and the Measurement of Futures Price Variability	24
3.3 Empirical Results	25
3.4 Conclusion	37
4 Business Cycles and the Behavior of Energy Prices	38
4.1 Introduction	38
4.2 Theoretical Foundations	39
4.3 Data	41

4.4	Test Results	41
4.5	Conclusion	43
5	A Cointegration Analysis of Petroleum Futures Prices	46
5.1	Introduction	46
5.2	The Data and Stochastic Trends	47
5.3	Econometric Methodology and Empirical Results	50
5.4	Conclusion	54
Part 2: Natural Gas Markets		55
6	Is There an East-West Split in North American Natural Gas Markets?	59
6.1	Introduction	59
6.2	The North American Natural Gas Spot Markets	60
6.3	The Data and Stochastic Trends	61
6.4	Test Methods (and Capabilities) and Results	66
6.5	Conclusion	72
7	Business Cycles and Natural Gas Prices	73
7.1	Introduction	73
7.2	The Stylized Facts	74
7.3	Granger Causality Tests	77
7.4	Conclusion	80
8	Futures Trading and the Storage of North American Natural Gas	82
8.1	Introduction	82
8.2	Testing the Theory of Storage	83
8.3	The Data	84
8.4	Empirical Results	84
8.5	Robustness	86
8.6	Conclusion	86
Part 3: Electricity Markets		89
9	Power Trade on the Alberta-BC Interconnection	93
9.1	Introduction	93
9.2	Wholesale Trade of Electricity: Economic and Physical Implications	94
9.3	The Alberta-British Columbia Interconnection	96

9.4	Empirical Analysis	97
9.5	An RTO Scenario in the Western Region	99
9.6	Conclusion	101
10	Imports, Exports, and Prices in Alberta's Deregulated Power Market	103
10.1	Introduction	103
10.2	The Role of Imports and Exports	104
10.3	Data	106
10.4	Granger Causality Tests	108
10.5	Empirical Evidence	118
10.6	Conclusions	120
11	Cointegration Analysis of Power Prices in the Western North American Markets	121
11.1	Introduction	121
11.2	Literature Review	122
11.3	The Data	124
11.4	Testing for Stochastic Trends	129
11.5	Testing for Cointegration	131
11.6	Error Correction Modeling and Causality Testing	137
	11.6.1 Bivariate Granger Causality Tests	137
	11.6.2 Trivariate Granger Causality Tests	140
11.7	Conclusions	142
	Part 4: Crude Oil, Natural Gas, and Electricity Markets	145
12	The Cyclical Behavior of Monthly NYMEX Energy Prices	149
12.1	Introduction	149
12.2	Methodology	150
12.3	Data and Results	151
12.4	Conclusion	154
13	The Message in North American Energy Prices	156
13.1	Introduction	156
13.2	Some Basic Facts	157
13.3	The Integration Properties of the Variables	159
13.4	Shared Price Trends	163
13.5	Error Correction Estimates and Causality Tests	166
13.6	Conclusion	168

14 Testing for Common Features in North American Energy Markets	172
14.1 Introduction	172
14.2 Common Trends and Common Cycles	174
14.2.1 Common Trends	174
14.2.2 Common Cycles	175
14.2.3 Codependent Cycles	176
14.3 The Evidence	177
14.4 Common Features in Natural Gas Markets	183
14.5 Conclusion	187
Part 5: Volatility Modelling in Energy Markets	189
15 Returns and Volatility in the NYMEX Henry Hub Natural Gas Futures Market	193
15.1 Introduction	193
15.2 The Data	194
15.3 Modeling Returns	196
15.4 Modeling Volatility	199
15.5 Conclusion	202
16 Measuring and Testing Natural Gas and Electricity Markets Volatility: Evidence from Alberta's Deregulated Markets	205
16.1 Introduction	205
16.2 The Data	206
16.3 The Model	207
16.4 Empirical Results	212
16.5 Conclusions	220
Part 6: Chaos, Fractals, and Random Modulations in Energy Markets	221
17 The North American Natural Gas Liquids Markets are Chaotic	225
17.1 Introduction	225
17.2 Background	227
17.3 Basic Facts and Integration Tests	228
17.4 Tests for Chaos	232
17.5 Empirical Results	234
17.6 Conclusion	244

18 Random Fractal Structures in North American	
Energy Markets	245
18.1 Introduction	245
18.2 Data and Statistical Analysis	246
18.2.1 The Above and Below Test for Randomness	246
18.2.2 The Hurst Test	248
18.3 A Fractal Noise Model	249
18.3.1 The Power Spectrum	250
18.3.2 The Structure Function Test	250
18.4 A Multifractal Data Analysis	253
18.5 On Turbulent Behavior	254
18.6 Conclusion	255
19 Randomly Modulated Periodic Signals in Alberta’s	
Electricity Market	256
19.1 Introduction	256
19.2 Randomly Modulated Periodicity	257
19.3 Signal Coherence Spectrum	259
19.4 Alberta’s Power Market	260
19.5 RMP in Alberta’s Power Market	262
19.6 Conclusion	267
Bibliography	269
Author Index	283
Topic Index	287
