<i>Foreword</i>	<i>vii</i>
<i>Preface</i>	<i>ix</i>
1. The Plan of the Book	1
1.1 Introduction	1
1.2 The Outline of the Book.....	3
2. Understanding National Security	7
2.1 The Changing Role of the State	8
2.2 The State and Globalization	10
2.3 Other Globalization Actors.....	12
2.4 Global and Local Identities	13
2.5 The Complex Security Environment	14
2.6 The Asymmetric Threats	15
2.7 Transnational Organized Crime as a National Security Threat.	18
2.8 Current State Responses.....	20
2.9 The Future Role of National Security	22
3. The Complex and Uncertain International Security Environment	23
3.1 Threats, Risks and Vulnerability	24
3.2 Types of Threat Actors.....	30

3.3	The Fragility of the Developed States	34
3.4	Converging Technology Trends and the Threat Environment .	36
3.5	Complexity and Uncertainty in the International System	41
3.6	Predicting the Future	43
4.	Strategic Intelligence Assessment and Surprise Attacks	45
4.1	Underlying Themes	46
4.2	Definitions	47
4.3	Data, Information, Knowledge and Assessment	50
4.4	The Intelligence Cycle: Direction, Collection, Analysis, and Dissemination	52
4.5	Strategic Surprise and Predictability	53
4.6	The Need for Strategic Intelligence Theory	58
5.	Ancient and Modern Assessments: Common Problems	63
5.1	The Ancients and Strategic Surprise	64
5.2	Knowledge and Assessment Failures in Ancient Times	68
5.3	Modern Literature and the Study of Intelligence	69
5.4	Categories	69
5.5	The State of Strategic Intelligence Assessment	85
6.	Reinforcing Intelligence Failures	89
6.1	The Academic Response	91
6.2	Strategic Assessment and Terrorism	93
6.3	Reinforcing Failure	96
7.	Technology and Intelligence	97
7.1	The Outlook	98
7.2	A Lack of Balance in Resources	98
7.3	The Militarization of Intelligence	103
7.4	Secrecy Undermines the Analytical Process	104
7.5	A Lack of Training and Upgrading	105
7.6	Outlook and Conclusions	107
8.	Structure and Organization: The Weakness of Centralized Intelligence	111

9. Faint Signals	117
9.1 The Case of the Flying Telephone Pole	118
9.2 The Case of the Missed Declaration of War.....	122
9.3 The Case of the Missed Diplomatic Signals.....	125
9.4 Conclusions.....	127
10. More Faint Signals Being Missed?	131
10.1 The Case of Animal Disease and Pandemics.....	131
10.2 The Case of Technology Trends and Home Made Weapons .	134
10.3 The Case of Bangladesh	137
10.4 The Case of the United States and Information Sharing.....	140
10.5 The Case of Nano Technologies	142
11. National Security Intelligence and the Front Line Requirements	147
12. Open Source Intelligence	157
12.1 OSINT and National Security.....	158
12.2 What Constitutes Open Source Intelligence?.....	161
12.3 Secrecy is the Enemy of Knowledge.....	162
12.4 The Private Sector has More Information and Expertise	165
12.5 Contingencies and Surprises.....	166
12.6 OSINT and Information Flexibility	168
12.7 Limitations of Classified Intelligence	168
12.8 OSINT and Reliability	170
12.9 High Resolution Space-Based Open Source Imagery	173
12.10 Global Tracking of Issues	175
12.11 Outlook and Conclusions.....	177
13. Anticipating Future Threats: The Problem Areas	179
13.1 Predicting the Future	180
13.2 The Changing Role of the State and National Security.....	182
13.3 The Complex and Uncertain Environment.....	183
13.4 Technology and Future Intelligence	184
13.5 Traditional Methods of Strategic Intelligence Warning.....	185
13.6 Artificial Intelligence?	185

14. Anticipating Future Threats: The Areas of Strength	189
14.1 Resiliency and Efficiency	190
14.2 Diverse Views or Consensus?	192
14.3 Asymmetric Threats and Knowledge	192
14.4 Knowledge Workers and Small Groups	194
14.5 Order and Choice	195
14.6 Outlook and Conclusions	197
15. The Singapore Risk Assessment and Horizon Scanning Process	199
15.1 Risk Assessment and Horizon Scanning	201
15.2 Interview with Ambassador Lam Chuan Leong	202
15.3 Interview with Civil Service Head Mr. Peter Ho	207
15.4 Interview with Mr. Dave Snowden of Cognitive Edge	212
16. Rethinking National Security Intelligence	227
16.1 An <i>Intelligent</i> Future for Strategic Intelligence	228
16.2 The Changing Role of the State	228
16.3 National Security Must be a Public Issue	229
16.4 The Future Cannot be Predicted, but it Can be Anticipated.	229
16.5 Faint Signal Detection	230
16.6 Emerging Threats are Asymmetric in Nature	231
16.7 Diversity is the Key	231
16.8 Humans are not Rational Decision Makers	231
16.9 Government is not a Business	232
16.10 Open Source Intelligence is Critical	233
16.11 Education is Required	233
16.12 Short Term Future — A Bit Bleak in Some States	233
16.13 Methodology is not Critical	234
16.14 Digital and Analogue	235
16.15 The Future Could be Bright	235
16.16 The Future of Intelligence?	236
Appendix A: National Security and Education: Thinking Across the Boundaries of Time and Specialization	237
Bibliography	239
Index	243
