Preface	v
1 The concept of null curves	1
1.1 Smooth manifolds	1
1.2 Semi-Riemannian manifolds	5
1.3 Introduction to null curves	7
1.4 Screen and null transversal bundles	9
1.5 Quasi-orthonormal basis along a null curve	10
1.6 Brief notes and exercises	14
2 Null curves in Lorentzian manifolds M_1^{m+2}	19
2.1 Frenet frames along null curves	19
2.2 Invariance of Frenet frames	25
2.3 Null Cartan curves in M_1^3 , M_1^4 and M_1^5	29
2.4 Null Cartan curves in M_1^6	35
2.5 Fundamental theorem of null curves in \mathbf{R}_1^{m+2}	42
2.6 Brief notes and exercises	45
3 Null curves in M_2^{m+2}	51
3.1 Type 1 general Frenet frames	52
3.2 Type 2 general Frenet frames	55
3.3 Natural Frenet equations	63
3.4 Invariance of Frenet equations	74
3.5 Geometry of null curves in M_2^4	81
3.6 Geometry of null curves in M_2^6	86
3.7 Fundamental theorem of null curves in \mathbf{R}_2^{m+2}	91
3.8 Brief notes and exercises	95
4 Null curves in M_q^{m+2}	97
4.1 Frenet equations of Type 1 and Type 2	97
4.2 Frenet equations of Type q (≥ 3)	100
4.3 Natural Frenet equations	108
4.4 Invariance of Frenet frames	119
4.5 Geometry of null curves in M_q^6	129
4.6 Fundamental theorem of null curves in \mathbf{R}_q^{m+2}	135

5	Geometry of null Cartan curves	141
5.1	Null Cartan curves in Lorentzian manifolds	141
5.2	Null Cartan helices	146
5.3	Brief notes and research problems	157
6	Applications of null curves	165
6.1	Soliton solutions in 3D Lorentzian space forms	165
6.2	Soliton solutions in Minkowski spaces	169
6.3	Mechanical systems and 3D null curves	173
7	Lightlike hypersurfaces	185
7.1	Introduction	185
7.2	Screen and transversal bundles	190
7.3	Lightlike second fundamental forms	198
7.4	Integrable screen distribution	210
7.5	Induced curvature and Ricci tensors	220
7.6	Scalar curvature of genus zero	232
7.7	Brief notes and exercises	235
8	Geometry and physics of null geodesics	241
8.1	Introduction	241
8.2	Globally null manifolds	246
8.3	Frenet frames along null geodesics	252
8.4	Scalar curvature and null warped products	263
8.5	Null geodesics and photon surfaces	268
8.6	Brief notes on research papers	275
	Bibliography	281
	Index	289
