Chapter 18	The Limits of Business Development <i>Mats Larsson</i>	263
Chapter 19	Knowledge Management Across Borders: Empirical Evidence of the Current Status and Practices of Knowledge Management in Multinational Corporations <i>Helmut Kasper and Florian Kohlbacher</i>	279
SECTION III: TECHNOLOGY AND INNOVATION MANAGEMENT		295
Chapter 20	The Influence of Organizational Maturity in the Project Performance: A Research in the Information Technology Sector <i>Renato de Oliveira Moraes and Isak Kruglianskas</i>	297
Chapter 21	Organization for Product Development: The Successful Case of Embraer <i>Paulo Tromboni do Nascimento, Eduardo Vasconcellos, and Paulo César Lucas</i>	311
Chapter 22	A Study of R&D Outsourcing in the Manufacturing Industry: A Case Study of PS2 <i>Fujio Niwa and Midori Kato</i>	323
Chapter 23	A Strategic Science and Technology Planning and Development Process Model <i>Grace Bochenek, Carey Iler, Bruce Brendle, Timothy Kotnour, and James Ragusa</i>	341
Chapter 24	Institutional MOT: Co-Evolutionary Dynamism of Innovation and Institution <i>Chihiro Watanabe</i>	355

Chapter 25	Firms with Adaptability Lead a Way to Innovative Development <i>Akihisa Yamada and Chihiro Watanabe</i>	367
Chapter 26	Toward Project Strategy Typologies: Cases in Pharmaceutical Industry <i>Peerasit Patanakul, Aaron J. Shenhar, Dragan Z. Milosevic, and William Guth</i>	381
Chapter 27	Technology Know-How Protection: Promote Innovators, Discourage Imitators <i>Christoph Neemann and Günther Schuh</i>	397
Chapter 28	Comparison of Technology Forecasting Methods for Multi-National Enterprises: The Case for a Decision-Focused Scenario Approach <i>Oliver Yu</i>	409
SECTION IV: STANDARDS AND EVALUATIONAL METHODS		425
Chapter 29	Standards of Quality and Quality of Standards for Telecommunications and Information Technologies <i>Mostafa Hashem Sherif, Kai Jakobs, and Tineke M. Egyedi</i>	427
Chapter 30	A Methodology to Measure the Innovation Process Capacity in Enterprises <i>José Ramón Corona-Armentats, Laure Morel Guimaraes, and Vincent Boly</i>	449
Chapter 31	Auditing Technology Development Projects <i>Dominique R. Jolly</i>	465
Chapter 32	Complexity, Cost Reduction and Productivity Improvement Through History <i>Mats Larsson and Carl-Henric Nilsson</i>	485
SECTION V: SUSTAINABILITY		497
Chapter 33	Involvement of Small Manufacturing Firms in Organic Production Systems <i>Stéphane Talbot</i>	499

Chapter 34	Innovation, Competitiveness and Sustainability: Study on a Plywood Industry Cluster <i>Sieglinde Kindl da Cunha and João Carlos da Cunha</i>	515
Chapter 35	Sustainable Development in Companies: An International Survey <i>Daniela Ebner and Rupert J. Baumgartner</i>	535
Chapter 36	Enhancement of Environmental Performance Through Total Productive Maintenance <i>Rupert J. Baumgartner</i>	553
Chapter 37	Integrating Sustainable Business Management into Daily Business via Generic Management <i>Rupert J. Baumgartner</i>	563
SECTION VI: SOCIAL AND EDUCATIONAL ASPECTS IN MOT		575
Chapter 38	The New Company-School Relationship in the Knowledge Age <i>Luís Henrique Piovezan and Afonso Carlos Corrêa Fleury</i>	577
Chapter 39	Always Connected: How Young Brazilians Use Short Message Services (SMS) <i>Marie Agnes Chauvel</i>	589
Chapter 40	The Individual in Management of Technology <i>Marianne Hörlesberger</i>	601
