

Contents

List of Contributors		vii
Chapter 1	Introduction <i>J.P.A. Nicolai and G. Rakhorst</i>	1
Chapter 2	Design of Biomedical Products <i>G.J. Verkerke and E.B. van der Houwen</i>	23
Chapter 3	Animal Models in Biomaterials Research <i>G. Rakhorst, E.J.O. ten Hallers and C.M.A. Thuring</i>	39
Chapter 4	Technology Assessment <i>J.M. Hummel</i>	55
Chapter 5	Haemocompatibility of Medical Devices <i>W. van Oeveren</i>	67
Chapter 6	Tissue and Cell Interactions with Materials <i>T.G. van Kooten and R. Kuijer</i>	93
Chapter 7	Biomaterial-associated Surgery and Infection — A Review of the Literature <i>P.G.M. Maathuis, S.K. Bulstra, H.C. van der Mei, J.R. van Horn and H.J. Busscher</i>	119

Case 1	Cardiopulmonary Bypass and Postoperative Organ Dysfunction <i>Y. John Gu</i>	139
Case 2	Mechanical Circulatory Support Systems <i>G. Rakhorst and M.E. Erasmus</i>	153
Case 3	Biomaterial-related Infections in Orthopedic Implants <i>D. Neut and R.L. Diercks</i>	169
Case 4	Biomaterials for Voice Reconstruction <i>G.J. Verkerke, J.W. Tack, I.F. Herrmann, H.F. Mahieu, B.F.A.M. van der Laan and H.K. Schutte</i>	191
Case 5	Biomaterials in Ophthalmology <i>S.A. Koopmans and V.W. Renardel de Lavalette</i>	209
Case 6	Biomaterials in Plastic Surgery <i>M.F. Meek</i>	229
Case 7	Surgical Meshes — Morphology-dependent Bacterial Colonization <i>A.F. Engelsman</i>	241
