Preface.....	v
--------------	---

PART I: Perspectives

1. Enterprise Risk Management	3
1.1 What is ERM?	4
1.2 Types of Risk	6
1.2.1 Strategic risks	8
1.2.2 A framework for risk management	8
1.3 Current Status	11
1.4 Conclusions	12
Endnotes	13
2. The Financial Perspective	15
2.1 ERM and Financial Operations	16
2.1.1 Key financial risks	18
2.1.2 Measuring market risk	18
2.2 Market Risk Measurements	19
2.2.1 VaR – Value at risk	19
2.2.2 Historical simulation	21
2.2.3 Variance-covariance approach	23
2.2.4 Scenario analysis	24
2.3 Measuring Credit Risk	25
2.4 Measuring Operational Risk	26
2.5 Conclusions	31
Endnotes	31

3.	The Accounting Perspective	35
3.1	The COSO ERM Cube	36
3.1.1	Categories.....	36
3.1.2	Activities	37
3.2	Event Identification.....	38
3.2.1	Risk appetite.....	40
3.3	Example of Risk Quantification.....	40
3.4	Implementation Issues.....	40
3.5	Conclusions	41
	Endnotes.....	42
4.	Supply Chain Risk Management	45
4.1	Supply Chain Risk Management Process.....	46
4.1.1	Risk identification	47
4.1.2	Risk assessment.....	48
4.1.3	Risk avoidance	49
4.1.4	Risk mitigation	49
4.2	Supply Management.....	50
4.2.1	Supplier selection process	51
4.2.2	Supplier order allocation	51
4.3	Demand Management	52
4.4	Product Management.....	52
4.5	Information Management.....	52
4.5.1	Traditional supply chains	53
4.5.2	Collaborative planning, forecasting and replenishment	55
4.5.3	E-commerce security.....	56
4.6	Supply Chain Disruption.....	57
4.6.1	Examples of supply chain resilience	57
4.6.2	Robust strategies	58
4.7	Conclusions	61
	Endnotes.....	62
5.	Information Systems Perspective	67
5.1	Information Systems Risk	68
5.1.1	Systems	69

5.2	COSO Application of IS Risk Management	70
5.3	IS Risk Identification and Analysis.....	73
5.3.1	Brainstorming.....	74
5.3.2	Nominal group technique.....	75
5.3.3	Delphi method.....	75
5.3.4	The systems failure method.....	76
5.4	The Systems View of Enterprise Systems.....	81
5.4.1	Alternative ERP forms	82
5.4.2	Outsourcing risks	82
5.5	Conclusions	84
	Endnotes.....	85
6.	Disaster Planning	89
6.1	Risk Management of Human Systems	90
6.2	Emergency Management.....	91
6.2.1	Database support to emergency management	92
6.2.2	Data mining.....	93
6.2.3	Modeling	95
6.2.4	Emergency management support systems.....	96
6.3	Conclusions	97
	Endnotes.....	98

PART II: Tools

7.	Balanced Scorecard	105
7.1	Demonstration of ERM Balanced Scorecard	108
7.2	Case Study: Credit Scorecard Validation.....	111
7.2.1	Statistical results and discussion	111
7.2.2	Population distributions and stability.....	115
7.3	Conclusion.....	117
	Endnotes.....	118
8.	Multiple Criteria Analysis	121
8.1	Selection Decision Methods.....	122
8.1.1	Quality factors	124
8.1.2	Alternative ERP forms	124

8.2	Multiple Criteria Analysis.....	126
8.2.1	Scores	128
8.2.2	Weights	129
8.2.3	Value score.....	131
8.2.4	Other multiple criteria methods.....	132
8.3	Conclusions	132
	Endnotes.....	133
9.	Simulation and DEA Models of Risk	135
9.1	Supply Chain Risk.....	137
9.1.1	Supply chain models	137
9.1.2	Supply chain risk model.....	138
9.1.3	Multi-objective programming model	140
9.1.4	Chance constrained model	144
9.1.5	DEA model.....	145
9.2	Simulation	145
9.2.1	The simulation process.....	146
9.2.2	Cash management simulation.....	147
9.2.3	Risk management simulation models.....	150
9.2.4	Simulation and MOP	152
9.3	Conclusions	157
	Appendix A: Data Envelopment Analysis Basics.....	157
	Endnotes.....	158
10.	Credit Risk Analysis	161
10.1	Financial Risk Measures	162
10.2	Credit Scoring	165
10.2.1	Modeling	166
10.3	Data	167
10.4	Results	170
10.4.1	Results from overall population	171
10.4.2	Results from portfolio 1	174
10.4.3	Results from portfolio 2	179
10.5	Conclusions	183
	Endnotes.....	184

PART III: Cases

11. Hydro One Financial Risk	189
11.1 Initial Risk Management Organization	190
11.2 Risk Tolerance.....	193
11.3 Pilot Study	193
11.4 The Business Context of Risk Management at Hydro One	195
11.4.1 Hydro One risk tolerance	197
11.4.2 Risk treatment investment planning	199
11.5 ERM Outcomes and Benefits at Hydro One	199
Endnotes.....	200
12. Supply Chain Risk Cases	201
12.1 Early Supplier Involvement	201
12.1.1 Rolls Royce	202
12.1.2 ESI process at Rolls Royce	203
12.2 Vendor Risk	205
12.2.1 Landini Tractor operations	206
12.2.2 Tire operations	206
12.2.3 Zetor Tractors	207
12.3 Conclusions	208
Endnotes.....	209
13. ERP Risk Cases	211
13.1 ERP Advantages and Disadvantages.....	213
13.2 FoxMeyer Drug	215
13.3 Marathon Oil	218
13.4 Pratt & Whitney Canada	220
13.4.1 Benefits	222
13.4.2 Lessons learned	222
13.5 Conclusions	223
Endnotes.....	224

14. Training for Natural Disaster Recovery	227
14.1 The Problem Event.....	227
14.2 Disaster Recovery Training.....	228
14.3 The Exercise.....	229
14.4 Exercise Results	231
14.5 Implications.....	233
Endnotes.....	234
 Bibliography	 235
 Index	 249
