

CONTENTS

<i>Introduction</i>	v
Section I High-Level Cognition	
A Connectionist Approach to Modelling the Flexible Control of Routine Activities <i>Nicolas Ruh, Richard P. Cooper and Denis Mareschal</i>	3
Associative and Connectionist Accounts of Biased Contingency Detection in Humans <i>Serban C. Musca, Miguel A. Vadillo, Fernando Blanco and Helena Matute</i>	16
On the Origin of False Memories: At Encoding or at Retrieval? – A Contextual Retrieval Analysis <i>Eddy J. Davelaar</i>	28
Another Reason Why We Should Look After Our Children <i>John A. Bullinaria</i>	41
Section II Language	
A Multimodal Model of Early Child Language Acquisition <i>Abel Nyamapfene</i>	55
Constraints on Generalisation in a Self-Organising Model of Early Word Learning <i>Julien Mayor and Kim Plunkett</i>	66
Self-Organizing Word Representations for Fast Sentence Processing <i>Stefan L. Frank</i>	78

Grain Size Effects in Reading: Insights from Connectionist Models of Impaired Reading <i>Giovanni Pagliuca and Padraic Monaghan</i>	89
Using Distributional Methods to Explore the Systematicity between Form and Meaning in British Sign Language <i>Joseph P. Levy and Neil Thompson</i>	100
Section III Categorization and Visual Perception	
Transient Attentional Enhancement During the Attentional Blink: EEG Correlates of the ST ² Model <i>Srivas Chennu, Patrick Craston, Brad Wyble and Howard Bowman</i>	115
A Dual-Memory model of Categorization in Infancy <i>Gert Westermann and Denis Mareschal</i>	127
A Dual-Layer Model of High-Level Perception <i>J. W. Han, Peter C. R. Lane, Neil Davey and Yi Sun</i>	139
Section IV Sensory and Attentional Processing	
Processing Symbolic Sequences Using Echo-State Networks <i>Michal Čerňanský and Peter Tiňo</i>	153
Neural Models of Head-Direction Cells <i>Peter Zeidman and John A. Bullinaria</i>	165
Recurrent Self-Organization of Sensory Signals in the Auditory Domain <i>Charles Delbé</i>	178
Reconstruction of Spatial and Chromatic Information from the Cone Mosaic <i>David Alleysson, Brice Chaix De Lavarene and Martial Mermillod</i>	191

- The Connectivity and Performance of Small-World and Modular
Associative Memory Models 201
*Weiliang Chen, Rod Adams, Lee Calcraft, Volker Steuber and
Neil Davey*
- Connectionist Hypothesis About An Ontogenetic Development of
Conceptually-Driven Cortical Anisotropy 213
*Martial Mermillod, Nathalie Guyader, David Alleysson,
Serban Musca, Julien Barra and Christian Marendaz*
