

CONTENTS

Chapter 1	Introduction to <i>In-Situ</i> Electron Microscopy	1
	<i>Florian Banhart</i>	
Chapter 2	Observation of Dynamic Processes using Environmental Transmission or Scanning Transmission Electron Microscopy	15
	<i>Renu Sharma</i>	
Chapter 3	<i>In-Situ</i> High-Resolution Observation of Solid-Solid, Solid-Liquid and Solid-Gas Reactions	49
	<i>Hiroyasu Saka</i>	
Chapter 4	<i>In-Situ</i> Transmission Electron Microscopy: Nanoindentation and Straining Experiments	115
	<i>Wouter A. Soer and Jeff T. De Hosson</i>	
Chapter 5	<i>In-Situ</i> HRTEM Studies of Interface Dynamics During Solid-Solid Phase Transformations in Metal Alloys	161
	<i>James M. Howe</i>	
Chapter 6	<i>In-Situ</i> TEM of Filled Nanotubes: Heating, Electron Irradiation, Electrical and Mechanical Probing	187
	<i>Dmitri Golberg and Yoshio Bando</i>	

Chapter 7	<i>In-Situ</i> Ion and Electron Beam Effects on the Fabrication and Analysis of Nanomaterials	229
	<i>Kazuo Furuya, Minghui Song, and Masayuki Shimojo</i>	
Chapter 8	Electron Irradiation of Nanomaterials in the Electron Microscope	259
	<i>Florian Banhart</i>	
Chapter 9	<i>In-Situ</i> Observation of Atomic Defects in Carbon Nanostructures	297
	<i>Kazu Suenaga</i>
