Introduction and Overview	xiii
1. Strategies for Financial Reforms	1
1.1. Financial Liberalization: A Review of Major Issues	3
1.1.1. Theoretical Developments	4
1.1.1.1. An Overview of the Theory	5
1.1.1.2. Imperfect Information and Credit Rationing	6
1.1.1.3. Risk-Sharing and Macroeconomic Stability	8
1.1.1.4. The Problem of Moral Hazard	11
1.1.2. Policy Strategies	13
1.2. Experiences with Different Liberalization Strategies	15
1.2.1. Rapid Interest Rate Liberalization	15
1.2.2. Gradual Liberalization of Interest Rates	18
1.3. Summary and Conclusions	20
Appendix 1.A	22
Models of Credit Rationing and Implicit Contracts	22
1.A.1. Stiglitz–Weiss (1981) Model	22
1.A.2. Fried–Howitt (1980) Model	23
1.A.3. Mankiw (1986) Model	27
References	27
2. Managing Capital Flows	30
2.1. Introduction	30

2.2. International Private Capital Flows	
Into South East Asia	31
2.2.1. Why the Surge in Capital Inflows?	34
2.2.2. Liberalizing Capital Flows	35
2.2.3. Long-Term Flows	37
2.2.4. Short-Term Flows	38
2.3. Macroeconomic Effects	39
2.3.1. Contagion Effects	42
2.4. Policy Responses	44
2.4.1. Intervention	47
2.4.2. Sterilization Through Open Market Operations	49
2.4.3. Sterilization Through Increases in Reserve Requirements	53
2.4.4. Sterilization Through Shifts in Government Deposits	54
2.4.5. Fiscal Consolidation	55
2.4.6. Capital Controls	56
2.5. A Proposed Policy Strategy	57
2.5.1. In Open Capital Markets, MAS/HMA or NZ Model?	60
2.5.2. Credit Concentration	61
2.5.3. Connected Lending	61
2.6. Summary and Conclusions	62
Appendix 2.A: Basle Core Principles for Effective Banking Supervision	63
Preconditions for Effective Banking Supervision	63
Licensing and Structure	63
Prudential Regulations and Requirements	64
Methods of Ongoing Banking Supervision	65
Information Requirements	66
Formal Powers of Supervisors	66
Cross-Border Banking	66
Appendix 2.B: New Zealand Public Disclosure Framework for Banks	67
Registration of Banks	67
Reserve Bank Action When A Bank's Capital Falls Below Requirements	67
Form of Disclosure	68
Key Information Summary	68

General Disclosure Statement	69
Directors' Attestations and Legal Responsibilities	70
Reserve Bank's Responsibilities	70
References	71
3. External Debt, Adjustment, and Growth	74
3.1. Introduction	74
3.2. The Formal Framework	76
3.2.1. Brief Survey of the Literature	76
3.2.2. The Extended Model	78
3.2.3. The Reduced Model	82
3.2.4. Restrictions on External Financing	83
3.2.5. Optimal Growth	84
3.3. Application to the Philippines	88
3.4. Implications for Fiscal Policy and External Debt Management	91
3.5. Summary and Conclusions	92
Appendix 3.A: Stability Analysis	93
Appendix 3.B: Data	95
3.B.1. Definitions	95
3.B.2. Data Sources	96
3.B.3. Sample Period	96
3.B.4. Software Used	96
Appendix 3.C: Optimal Saving in a Learning by Doing Model	96
3.C.1. Introduction	96
3.C.2. The Model	100
3.C.3. The Reduced Model	102
3.C.3.1. Comparative Dynamics	104
3.C.4. Comments on the Optimal Saving Rate	108
3.C.5. Concluding Remarks	110
References	110
4. Exports and Economic Development	113
4.1. Introduction	113
4.2. The Growth Model	116
4.2.1. The Standard vs. Modified Models: An Overview	117
4.2.2. A Two-Sector Modified Model	123
4.2.2.1. Equilibrium Behavior	125

4.2.2.2. The Dynamic Effects of Exports on Economic Growth	127
4.2.2.3. Some Extensions	129
4.3. Optimal Saving	130
4.4. Summary and Conclusions	131
References	132
5. Openness, Human Development, and Fiscal Policies	135
5.1. Endogenous Growth	137
5.1.1. Reduced Model	140
5.1.2. Stability	141
5.1.3. Equilibrium Capital Intensity and Growth	143
5.1.4. Comparative Dynamics	143
5.1.4.1. Effects of a Higher Saving Rate	144
5.1.4.2. Effects of Openness, Human Development Spending, and Technical Change	146
5.1.4.3. Effects of Fiscal Deficits and Population Growth	148
5.2. Optimal Long-Run Growth	148
5.3. The Speed of Adjustment Toward Equilibrium	151
5.3.1. Analytical Approach	151
5.3.2. Simulation	152
5.3.3. Empirical Approach	155
5.4. Summary and Conclusions	158
Appendix 5.A: Data Used in the Study	159
List of Countries	160
The Data	160
Appendix 5.B: The Endogenous Growth Model in a Ramsey Framework	162
5.B.1. The Model	162
5.B.2. The Reduced Model	164
5.B.2.1. Comparative Dynamics	165
5.B.3. Optimal Saving Rate	167
5.B.4. The Speed of Adjustment to Equilibrium	168

5.B.5. Conclusion	173
References	174
6. Social and Political Factors in a Model of Endogenous Economic Growth and Distribution: An Application to the Philippines	176
6.1. Introduction	176
6.2. The Theoretical Framework	177
6.2.1. The Macro Economy	177
6.2.2. Asset Distribution and Social Extraction	179
6.2.2.1. Factor Incomes and the Rate of Extraction	180
6.2.2.2. The Determinants of the Rate of Extraction	181
6.2.3. Politics of Growth and Growth of Politics	184
6.2.4. The Growth Model	186
6.2.4.1. Calibration of the Model	189
6.2.4.2. Simulating the Effects of Public Policies	192
6.2.4.2.1. Sector-Specific and Institutional Policies	193
6.2.4.2.2. Fiscal Policies	196
6.2.4.2.3. Sensitivity of Results to Assumption on α	198
6.3. The Philippine Macroeconomic Experience	199
6.3.1. Wealth Distribution	200
6.3.2. The Rate of Social Extraction	200
6.3.2.1. Inflation	201
6.3.2.2. Extractive Activities	202
6.3.3. Distributional Issues	204
6.4. Summary and Conclusions	205
Appendix 6.A: Derivation of Optimal Group Allocation Rates	206
References	209
7. Does Monetary Policy Matter for Long-Run Growth?	211
7.1. Introduction	211
7.2. The Modified Model	212
7.3. The Effects of Disinflation	220

7.4. Optimal Monetary Policy and Optimal Long-Run Growth	224
7.5. The Speed of Adjustment to Long-Run Equilibrium	227
7.6. Summary and Conclusions	230
Appendix 7.A: The Reduced Model and Stability Analysis . . .	231
Regressions	233
References	235
Index	237
