

## Contents

Preface	v
<b>Part 1. Atmospheric Dynamics and Meteorology</b>	
1. Understanding the El Niño–Southern Oscillation and Its Interactions with the Indian Ocean and Monsoon	3
<i>Jin-Yi Yu</i>	
2. Ocean–Atmosphere–Land Feedbacks on the Western North Pacific–East Asian Summer Climate	23
<i>Chia Chou and Jien-Yi Tu</i>	
3. Coupling of the Intraseasonal Oscillation with the Tropical Cyclone in the Western North Pacific during the 2004 Typhoon Season	49
<i>Huang-Hsiung Hsu, An-Kai Lo, Ching-Hui Hung, Wen-Shung Kau, Chun-Chieh Wu and Yun-Lan Chen</i>	
4. Convective–Radiative–Mixing Processes in the Tropical Ocean–Atmosphere	66
<i>Chung-Hsiung Sui, Xiaofan Li, William K.-M. Lau, Wei-Kuo Tao, Ming-Dah Chou and Ming-Jen Yang</i>	
5. Understanding Atmospheric Catastrophes	89
<i>Winston C. Chao</i>	
6. Relative Intensity of the Pacific and Atlantic Storm Tracks in a Maximally Simplified Model Setting	104
<i>Mankin Mak</i>	
7. The Role of Cumulus Heating in the Development and Evolution of Meiyu Frontal Systems	117
<i>George Tai-Jen Chen</i>	

8. Advance in the Dynamics and Targeted Observations of Tropical Cyclone Movement <i>Chun-Chieh Wu</i>	136
9. Vortex Interactions and Typhoon Concentric Eyewall Formation <i>H.-C. Kuo, L.-Y. Lin, C.-L. Tsai and Y.-L. Chen</i>	157
10. Rare Typhoon Development near the Equator <i>C.-P. Chang and Teo Suan Wong</i>	172
11. Assimilation of Satellite Ocean Surface Winds at NCEP and Their Impact on Atmospheric Analyses and Weather Forecasting <i>Tsann-Wang Yu</i>	182
12. Purdue Atmospheric Models and Applications <i>Wen-Yih Sun, Wu-Ron Hsu, Jiun-Dar Chern, Shu-Hua Chen, Ching-Chi Wu, Kate Jr-Shiuan Yang, Kaosan Yeh, Michael G. Bosilovich, Patrick A. Haines, Ki-Hong Min, Tae-Jin Oh, B. T. MacCall, Ahmet Yildirim, Yi-Lin Chang, Chiao-Zen Chang and Yi-Chiang Yu</i>	200
<b>Part 2. Atmospheric Physics and Chemistry</b>	
13. Interaction between Aerosols and Clouds: Current Understanding <i>Jen-Ping Chen, Anupam Hazra, Chein-Jung Shiu, I-Chun Tsai and Hsiang-He Lee</i>	231
14. Application of Satellite-Based Surface Heat Budgets to Climate Studies of the Tropical Pacific Ocean and Eastern Indian Ocean <i>Ming-Dah Chou, Shu-Hsien Chou and Shuk-Mei Tse</i>	282
15. Some Unsolved Problems in Atmospheric Radiative Transfer: Implication for Climate Research in the Asia-Pacific Region <i>K. N. Liou, Y. Gu, W. L. Lee, Y. Chen and P. Yang</i>	307
16. Progress in Atmospheric Vortex Structures Deduced from Single Doppler Radar Observations <i>Wen-Chau Lee and Ben Jong-Dao Jou</i>	326
17. Typhoon-Ocean Interactions Inferred by Multisensor Observations <i>I-I Lin and Chun-Chieh Wu</i>	358

18. Outbreaks of Asian Dust Storms: An Overview from Satellite and Surface Perspectives	373
<i>Si-Chee Tsay</i>	
19. An Overview of Satellite-Measured Cloud Layer Structure and Cloud Optical and Microphysical Properties	402
<i>Fu-Lung Chang</i>	
20. Recent Advances in Research on Micro- to Storm-Scale Ice Microphysical Processes in Clouds	419
<i>Pao K. Wang, Hsinmu Lin, Hui-Chun Liu, Mihai Chiruta and Robert E. Schlesinger</i>	
21. A Review of Ozone Formation in Megacities of East Asia and Its Potential Impact on the Ozone Trends	438
<i>Shaw Chen Liu</i>	
22. Impact of FORMOSAT-3/COSMIC Data on Typhoon and Mei-yu Prediction	458
<i>Ying-Hwa Kuo, Hui Liu, Yong-Run Guo, Chuen-Teyr Terng and Yun-Tien Lin</i>	
Author Index	485
