

CONTENTS

Preface	vii
Part A Development of Enabling Technologies	1
Multi-Agent-based System for Logistics Service Process <i>Feng He and Qi Xu</i>	3
Improved Data Mining Algorithms for Frequent Patterns with Composite Items <i>Ke Wang, James N. K. Liu and Wei-Min Ma</i>	10
Ontology Matching Approach Based on Triangle Fuzzy Expression <i>Pengfei Qian and Yinglin Wang</i>	17
Towards Building Semantic Decision Tables with Domain Ontologies <i>Yan Tang and Robert Meersman</i>	24
Parallel Local Search to Improve the Performance of Genetic Algorithms <i>Youzhi Zheng, Zheng Qin and Junliang Chen</i>	31
A Market Acceptance Framework for High-Tech Firms Accepting the Innovative Ultrasonic Cleaning Equipment by Delphi Method and AHP method <i>Jung Huang, Chih-Hung Wu, Wen-Ta Hsu and Tao Huang</i>	37
Determining Batch Size in a Supply Chain <i>Ruedee Masuchun and Wiboon Masuchun</i>	44
An Approach to Analyzing the Bidirectional Values <i>Chenyin Pan and Sufen Wang</i>	50
An Online Frequency Rate Based Algorithm for Mining Frequent Sequences in Evolving Data Streams <i>M. Barouni-Ebrahimi and Ali A. Ghorbani</i>	56
Formal Negotiation Model for Automated Agents in E-commerce Systems <i>T. Kijthaweesinpoon and P.L. Zhou</i>	63
Study on the Theory of Using SDN to Solve a Supply Chain Bottleneck Problem <i>Jing He and Fu-Yuan Xu</i>	70
A Hermeneutic Approach to Information Analysis for Information Requirements <i>Sufen Wang and Junnkang Feng</i>	76
Making Folksonomy Machine-Understandable <i>Prabodh Shrestha and Lina Zhou</i>	83

Part B Electronic & Management	91
Study KM Systems from CAS Perspective <i>Meiqi Fang, Ying Liu and Shuguang Suo</i>	93
Financial Performance and Enterprise Resource Planning Implementation: A Study of Manufacturers in Taiwan <i>Chien-Wen Shen</i>	99
User Awareness and Attitude to Home WLAN Security <i>Frode Eika Sandnes, Ugo Santucci and Yo-Ping Huang</i>	106
SAP Business One and SIMERP: Differences, Similarities, and Applications <i>Mingyang Yang and Meiqi Fang</i>	112
Jointly Managed Inventory Model and Implement Analysis <i>Guoling Lao and Lei Xing</i>	118
The Role of Third Party Trust Mechanisms under C2C Environment in China <i>Tao Zhou and Yaobin Lu</i>	125
Dynamic Cooperation Design of Supply Chain Based on Reputation <i>Guiqing Qi and Xihuai Yang</i>	131
SemTour : HK – A Tourist Information System <i>Toby H.W. Lam and James N.K. Liu</i>	137
Part C IT Systems & Applications	145
An Integrated Distributed System for Web News Retrieval <i>Man-Chung Chan, Wei-Dong Luo and James N. K. Liu</i>	147
FSAM: A Fuzzy-based Middleware Framework for Context-Aware Adaptive Services <i>Ronnie Cheung</i>	155
CRM Project Management in the Service Industry in Hong Kong <i>Chi Wah Man and Hareton Leung</i>	161
A Concept for Applying Model-driven Engineering to Application Integration <i>Clemens Dorda, Uwe Heinkel and Bernhard Mitschang</i>	168
New Developments in E-learning Through Multi-Institutional Collaborations – A Case Study of the HKCyberU <i>Ronnie Cheung and Pamela Lam</i>	175
Supporting UML Activity Diagrams Using Organizational Models <i>Moshiur Bhuiyan, MM Zahidul Islam, George Koliadis, Aneesh Krishna and Aditya Ghose</i>	182

	xi
A Case Study of Student Centered Teaching Supported with E-Learning (SCET) <i>Xiangqian Cheng and James N. K. Liu</i>	189
Evaluation Information System Using Fuzzy Neural Networks <i>Weimin Ma and Xiujuan Ma</i>	197
Immunology-based Subspace Detectors for Anomaly Detection <i>Xiaoshu Hang and Honghua Dai</i>	204
Author Index	213
