

CONTENTS

Foreword	vii
Preface	ix
The Basic Epidemiology Models: Models, Expressions for R_0 , Parameter Estimation, and Applications <i>Herbert W. Hethcote</i>	1
Epidemiology Models with Variable Population Size <i>Herbert W. Hethcote</i>	63
Age-Structured Epidemiology Models and Expressions for R_0 <i>Herbert W. Hethcote</i>	91
Clinical and Public Health Applications of Mathematical Models <i>John W. Glasser</i>	129
Non-identifiability and Invariant Quantities in Infectious Disease Models <i>Ping Yan</i>	167
