

## CONTENTS

Preface	v
Linear Independence of the Renormalized Higher Powers of White Noise <i>L. Accardi &amp; A. Boukas</i>	1
Brownian Dynamics Simulation for Protein Folding and Binding <i>T. Ando</i>	11
Quantum Fokker-Planck Models: The Lindblad and Wigner Approaches <i>A. Arnold, F. Fagnola &amp; L. Neumann</i>	23
Hilbert Space of Analytic Functions Associated with a Rotation Invariant Measure <i>N. Asai</i>	49
Quantum Continuous Measurements: The Spectrum of the Output <i>A. Barchielli &amp; M. Gregoratti</i>	63
Characterization Theorems in Gegenbauer White Noise Theory <i>A. Barhoumi, A. Riahi &amp; H. Ouerdiane</i>	77
A Problem of Powers and the Product of Spatial Product Systems <i>B. V. R. Bhat, V. Liebscher &amp; M. Skeide</i>	93
Free Martingale Polynomials for Stationary Jacobi Processes <i>N. Demni</i>	107

Accardi Complementarity for $-1/2 < \mu < 0$ and Related Results <i>L. A. Echavarría-Cepeda, C. J. Pita-Ruiz-Velasco &amp; S. B. Sontz</i>	120
Quantum Models of Brain Activities I. Recognition of Signals <i>K.-H. Fichtner &amp; L. Fichtner</i>	135
Kallman Decompositions of Endomorphisms of von Neumann Algebras <i>R. Floricel</i>	145
Schrödinger Equation, $L^p$ -Duality and the Geometry of Wigner-Yanase-Dyson Information <i>P. Gibilisco, D. Imparato &amp; T. Isola</i>	157
Multiplicative Renormalization Method for Orthogonal Polynomials <i>H.-H. Kuo</i>	165
Quantum $L_p$ and Orlicz Spaces <i>L. E. Labuschagne &amp; W. A. Majewski</i>	176
Vicious Random Walkers and Truncated Haar Unitaries <i>J. I. Novak</i>	190
Incoherent Quantum Control <i>A. Pechen &amp; H. Rabitz</i>	197
Compromising Non-Demolition and Information Gaining for Qubit State Estimation <i>L. Ruppert, A. Magyar &amp; K. M. Hangos</i>	212
Positivity of Free Convolution Semigroups <i>M. Schürmann &amp; S. Voß</i>	225
Quasi-Free Stochastic Integrals and Martingale Representation <i>W. J. Spring</i>	236

A Method of Recovering the Moments of a Probability Measure from Commutators	242
<i>A. I. Stan &amp; J. J. Whitaker</i>	
Description of Decoherence by Means of Translation-Covariant Master Equations and Lévy Processes	254
<i>B. Vacchini</i>	
Minimum Back-Action Measurement via Feedback	266
<i>M. Yanagisawa</i>	
Author Index	277
