Foreword <i>P. Whittle</i>	v
Preface <i>K.-S. Chan</i>	vii
Acknowledgments	ix
Publications of Howell Tong	xv
Photograph Sets 1 and 2	xxix
Birth of the Threshold Time Series Model <i>H. Tong</i>	1
Threshold Autoregression, Limit Cycles and Cyclical Data (with Discussion) <i>H. Tong and K. S. Lim</i>	9
Review of the Paper by Howell Tong and K. S. Lim: “Threshold Autoregression, Limit Cycles and Cyclical Data (with Discussion)” <i>H. Z. An</i>	57
Reflections on Threshold Autoregression <i>P. J. Brockwell</i>	63
Threshold Autoregression: Its Seed Corn, Meeting the Market Test, and Two of Its Spillover Effects <i>T. B. Fomby</i>	69
The SETAR Model of Tong and Lim and Advances in Computation <i>J. Geweke</i>	85
The Threshold Approach in Volatility Modelling <i>W. K. Li</i>	95
Dependence and Nonlinearity <i>M. Rosenblatt</i>	101
The Threshold Approach: An Appreciation <i>R. S. Tsay</i>	107

Photograph Sets 3 and 4	111
On Consistent Nonparametric Order Determination and Chaos <i>B. Cheng and H. Tong</i>	113
Recent Developments on Semiparametric Regression Model Selection <i>J. Gao</i>	137
An Introduction to a Paper by Bing Cheng and Howell Tong: On Consistent Nonparametric Order Determination and Chaos (with Discussion) <i>D. Tjøstheim</i>	147
On the Use of the Deterministic Lyapunov Function for the Ergodicity of Stochastic Difference Equations <i>K.-S. Chan and H. Tong</i>	151
Thoughts on the Connections Between Threshold Time Series Models and Dynamical Systems <i>D. B. H. Cline</i>	165
A Personal Overview of Non-Linear Time Series Analysis from a Chaos Perspective (with Discussion) <i>H. Tong</i>	183
Crossing the Bridge Backwards: Some Comments on Early Interdisciplinary Efforts <i>C. D. Cutler</i>	231
Reflections from Re-Reading Howell Tong's 1995 Paper: "A Personal Overview of Non-Linear Time Series Analysis from a Chaos Perspective" <i>T. Lawrance</i>	237
Chaos Perspective of Nonlinear Time Series: A Selective Review <i>Q. Yao</i>	249
Photograph Sets 5 and 6	255
On the Analysis of Bivariate Non-Stationary Processes <i>M. B. Priestley and H. Tong</i>	257
On Likelihood Ratio Tests for Threshold Autoregression <i>K.-S. Chan and H. Tong</i>	271
Strong Consistency of the Least Squares Estimator for a Non-Ergodic Threshold Autoregressive Model <i>D. T. Pham, K.-S. Chan and H. Tong</i>	279

Some Remarks on Professor Tong's Two Papers <i>S. Ling</i>	289
Photograph Sets 7 and 8	297
An Adaptive Estimation of Dimension Reduction Space (with Discussion) <i>Y. Xia et al.</i>	299
An Adaptive Estimation Method for Semiparametric Models and Dimension Reduction <i>C. Leng, Y. Xia and J. Xu</i>	347
Common Dynamic Structure of Canada Lynx Populations within Three Climatic Regions <i>N. Chr. Stenseth et al.</i>	361
The Importance of TAR-Modelling for Understanding the Structure of Ecological Dynamics: The Hare-Lynx Population Cycles as an Example <i>N. Chr. Stenseth</i>	365
On Howell Tong's Contributions to Reliability <i>M. Masoom Ali</i>	375
A Chinese Poem, with Translation <i>H. Tong</i>	381
