

CONTENTS

DANF 2006 Conference Committee	v
Preface	vii
FISSION DYNAMICS	
Dependence of Scission-Neutron Yield on Light-Fragment Mass for $\Omega = 1/2$	1
<i>N. Carjan and M. Rizea</i>	
New Clues on Fission Dynamics from Systems of Intermediate Fissility	8
<i>E. Vardaci et al.</i>	
Dynamics of Capture Quasifission and Fusion-Fission Competition	22
<i>L. Stuttgé et al.</i>	
FUSION-FISSION	
The Processes of Fusion-Fission and Quasi-Fission of Superheavy Nuclei	36
<i>M.G. Itkis et al.</i>	
Fission and Quasifission in the Reactions $^{44}\text{Ca}+^{206}\text{Pb}$ and $^{64}\text{Ni}+^{186}\text{W}$	54
<i>G.N. Knyazheva et al.</i>	
Mass-Energy Characteristics of Reactions $^{58}\text{Fe}+^{208}\text{Pb}\rightarrow^{266}\text{Hs}$ and $^{26}\text{Mg}+^{248}\text{Cm}\rightarrow^{274}\text{Hs}$ at Coulomb Barrier	64
<i>L. Krupa et al.</i>	
Fusion of Heavy Ions at Extreme Sub-Barrier Energies	82
<i>Ş. Mişicu and H. Esbensen</i>	
Fusion and Fission Dynamics of Heavy Nuclear System	94
<i>V. Zagrebaev and W. Greiner</i>	

Time-Dependent Potential Energy for Fusion and Fission Processes <i>A.V. Karpov et al.</i>	112
-----------------------------------------------------------------------------------------------	-----

SUPERHEAVY ELEMENTS

Advances in the Understanding of Structure and Production Mechanisms for Superheavy Elements <i>W. Greiner and V. Zagrebaev</i>	124
---------------------------------------------------------------------------------------------------------------------------------------	-----

Fission Barriers of Heaviest Nuclei <i>A. Sobiczewski et al.</i>	143
---------------------------------------------------------------------	-----

Possibility of Synthesizing Doubly Magic Superheavy Nuclei <i>Y. Aritomo et al.</i>	155
----------------------------------------------------------------------------------------	-----

Synthesis of Superheavy Nuclei in ^{48}Ca -Induced Reactions <i>V.K. Utyonkov et al.</i>	167
------------------------------------------------------------------------------------------------------	-----

FRAGMENTATION

Production of Neutron-Rich Nuclei in the Nucleus-Nucleus Collisions Around the Fermi Energy <i>M. Veselský</i>	179
----------------------------------------------------------------------------------------------------------------------	-----

Signals of Enlarged Core in ^{23}Al <i>Y.G. Ma et al.</i>	191
-----------------------------------------------------------------------	-----

EXOTIC MODES

New Insight into the Fission Process from Experiments with Relativistic Heavy-Ion Beams <i>K.-H. Schmidt et al.</i>	203
---------------------------------------------------------------------------------------------------------------------------	-----

New Results for the Intensity of Bimodal Fission in Binary and Ternary Spontaneous Fission of ^{252}Cf <i>C. Goodin et al.</i>	216
-----------------------------------------------------------------------------------------------------------------------------------------------	-----

Rare Fission Modes: Study of Multi-Cluster Decays of Actinide Nuclei <i>D.V. Kamanin et al.</i>	227
Energy Distribution of Ternary α -Particles in $^{252}\text{Cf}(\text{sf})$ <i>M. Mutterer et al.</i>	238
Preliminary Results of Experiment Aimed at Searching for Collinear Cluster Tripartition of ^{242}Pu <i>Y.V. Pyatkov</i>	248
Comparative Study of the Ternary Particle Emission in $^{243}\text{Cm}(\text{n}_{\text{th}},\text{f})$ and $^{244}\text{Cm}(\text{SF})$. <i>S. Vermote et al.</i>	259
STRUCTURE OF FISSION FRAGMENTS AND NEUTRON RICH NUCLEI	
Manifestation of Average γ -Ray Multiplicity in the Fission Modes of $^{252}\text{Cf}(\text{sf})$ and the Proton-Induced Fission of ^{233}Pa , ^{239}Np , and ^{243}Am <i>M. Berešová et al.</i>	271
Yields of Correlated Fragment Pairs and Average Gamma-Ray Multiplicities and Energies in $^{208}\text{Pb}(^{18}\text{O},\text{f})$ <i>A. Bogachev et al.</i>	281
Recent Experiments at Gammasphere Intended to the Study of ^{252}Cf Spontaneous Fission <i>A.V. Daniel et al.</i>	295
Nuclear Structure Studies of Microsecond Isomers Near $A = 100$ <i>J. Genevey et al.</i>	307
Covariant Density Functional Theory: Isospin Properties of Nuclei Far from Stability <i>G.A. Lalazisis</i>	319
Relativistic Mean-Field Description of Light Nuclei <i>J. Leja and Š. Gmuca</i>	331

Energy Nucleon Spectra from Reactions at Intermediate Energies <i>O. Grudzevich et al.</i>	337
-----------------------------------------------------------------------------------------------	-----

DEVELOPMENTS IN EXPERIMENTAL TECHNIQUES

Analysis, Processing and Visualization of Multidimensional Data Using DaqProVis System <i>M. Morháč et al.</i>	343
List of participants	353
Author index	359
