

## Contents

Preface	v
Partial Correlations of Sequences and Their Applications <i>S. Boztaş and P. Udaya</i>	1
On the Structure of Cyclic and Negacyclic Codes over Finite Chain Rings <i>H. Q. Dinh, S. R. López-Permouth and S. Szabo</i>	22
Linear Codes over Finite Chain Rings and Projective Hjelmslev Geometries <i>T. Honold and I. Landjev</i>	60
Foundations of Linear Codes Defined over Finite Modules: The Extension Theorem and the MacWilliams Identities <i>J. A. Wood</i>	124
