

Contents

<i>Foreword</i>	v
<i>Preface</i>	vii
1. High-Dimensional Discrete Statistical Models: UIP, MCP and CSI in Perspectives <i>P. K. Sen</i>	1
2. A Review of Multivariate Theory for High Dimensional Data with Fewer Observations <i>M. S. Srivastava</i>	25
3. Model Based Penalized Clustering for Multivariate Data <i>S. Ghosh and D. K. Dey</i>	53
4. Jacobians Under Constraints and Statistical Bioinformatics <i>K. V. Mardia</i>	73
5. Cluster Validation for Microarray Data: An Appraisal <i>V. Pihur, G. N. Brock and S. Datta</i>	79
6. Flexible Bivariate Circular Models <i>B. C. Arnold and A. SenGupta</i>	95

7. Optimal Text Space Representation of Student Essays Using Latent Semantic Analysis	107
<i>A. Villacorta and S. R. Jammalamadaka</i>	
8. Linear Regression for Random Measures	131
<i>M. M. Rao</i>	
9. Mixed Multivariate Models for Random Sums and Maxima	145
<i>T. J. Kozubowski, A. K. Panorska and F. Biondi</i>	
10. Estimation of the Multivariate Box-Cox Transformation Parameters	173
<i>M. Rahman and L. M. Pearson</i>	
11. Generation of Multivariate Densities	185
<i>R. N. Rattihalli and A. N. Basugade</i>	
12. Smooth Estimation of Multivariate Distribution and Density Functions	195
<i>Y. P. Chaubey</i>	
13. Estimation Using Quantile Function Structure with Emphasis on Weibull Distribution	215
<i>G. D. Kollia, G. S. Mudholkar and D. K. Srivastava</i>	
14. On Optimal Estimating Functions in the Presence of Nuisance Parameters	237
<i>P. Mukhopadhyay</i>	
15. Inference in Exponential Family Regression Models Under Certain Shape Constraints	249
<i>M. Banerjee</i>	
16. Study of Optimal Adaptive Rule in Testing Problem	273
<i>S. K. Bhandari, R. Dutta and R. G. Niyogi</i>	

17. The G-IG Analogies and Robust Tests for Inverse Gaussian Scale Parameters 285
G. S. Mudholkar, H. Wang and R. Natarajan
18. Clusterwise Regression Using Dirichlet Mixtures 305
C. Kang and S. Ghosal
19. Bayesian Analysis of Rank Data Using SIR 327
A. K. Laha and S. Dongaonkar
20. Bayesian Tests of Equality of Stratified Proportions for a Multiple Response Categorical Variable 337
B. Nandram
21. Respondent-Generated Intervals in Sample Surveys: A Summary 357
S. J. Press and J. M. Tanur
22. Quality Index and Mahalanobis D^2 Statistic 367
R. Dasgupta
23. AQL Based Multiattribute Sampling Scheme 383
A. Majumdar
24. Multivariate Quality Management in Terms of a Desirability Measure and a Related Result on Purchase Decision: A Distributional Study 403
D. Roy
25. Time Series of Categorical Data Using Auto-Mutual Information with Application of Fitting an AR(2) Model 421
A. Biswas and A. Guha

26. Estimation of Integrated Covolatility for Asynchronous Assets
in the Presence of Microstructure Noise 437
R. Sen and Q. Xu
27. Improving the Hansen-Hurwitz Estimator in PPSWR Sampling 455
A. K. Adhikary
