

CONTENTS

Preface	v
Acknowledgements	vii
OVERVIEW	1
1. Background	1
2. Public Investments	4
3. Infrastructure	11
4. R&D and Commercialization	14
5. Nanotechnology Network	18
6. Education and Outreach	21
7. Standardization and Risk Management Efforts	24
8. Conclusion	26
References	32
Author Biography	33
Appendix of Glossary	35
CHAPTER 1 NANOTECHNOLOGY IN AUSTRALIA	37
1. Introduction	37
2. Policy and Infrastructure	38
2.1. National Research Networks	39
2.2. Key Research Centres	42
2.3. Major National Research Infrastructure	45
2.4. Education Programs	47
3. Research and Development Highlights	48
4. Commercialization of Australian Nanotechnology	52
5. Conclusions and Outlook	54
Acknowledgements	55
References	55
Author Biographies	56

CHAPTER 2 MICRO AND NANO SCIENCE AND TECHNOLOGY IN MAINLAND CHINA	59
1. Policy and Funding Strategy	60
2. National Research Networks and Events	63
2.1. National Societies and Networks	63
2.2. International Academy Events	65
2.3. International Contest of Applications in Nano/Micro Technologies (iCAN)	66
2.4. National Contest: MEMSIC Cup for MEMS Devices and Application	66
3. Infrastructure and Key Research Centers	67
3.1. National Center for Nano Science and Technology	70
3.2. Nanotechnology Industrialization Base of China	71
3.3. National Nanotechnology Engineering Research Center of China	71
3.4. National Key Laboratory of Micro/Nano Fabrication Technology	71
3.5. State Key Laboratory of Transducer Technology	72
4. University Nano Center of Excellence	72
4.1. Peking University (PKU)	72
4.2. Tsinghua University	74
4.3. Shanghai Jiao Tong University (SJTU)	75
4.4. Xi'an Jiaotong University	76
4.5. University of Science and Technology of China (USTC)	76
4.6. Southeast University	77
4.7. Chongqing University	77
4.8. Dalian University of Technology	78
4.9. Harbin Institute of Technology	79
4.10. Northwestern Polytechnic University	79
4.11. Xiamen University	80
5. Main Research Institutes from Chinese Academy of Sciences	80
5.1. Institute of Physics	80
5.2. Institute of Chemistry	81
5.3. Shanghai Institute of Microsystem and Information Technology	81
5.4. Institute of Electronics	81
5.5. Institute of Process Engineering	82
5.6. Institute of Solid State Physics	82

5.7. Institute of Metal Research (IMR)	83
6. The Research and Development Highlights	83
6.1. Carbon Nanotube and Nano Materials	84
6.2. Micro-Nano Fabrication, Devices and Systems	84
6.3. Micro-Nano Biology and Medicine	85
6.4. Characterization and Standard	85
7. Commercialization of China Micro-Nano Technology	86
7.1. MEMSIC	87
7.2. Capital Bio	87
7.3. Shenyang Academy of Instrumentation Science	89
7.4. First MEMS	89
7.5. MEMSensing Microsystems Co. Ltd.	89
7.6. Shanghai Integrated Micro System Technology (SIMST) Co. Ltd.	90
7.7. Xi'an Winner Information Measurement and Control Co. Ltd. .	90
7.8. Suzhou Institute of Nano-Technology and Nano-Bionics, Chinese Academy of Science — A Bio- and Nano-Tech Incubator	90
8. Summary and Outlook	92
Author Biographies	93

CHAPTER 3 NANOTECHNOLOGY RESEARCH AND COMMERCIALIZATION IN HONG KONG 95

1. Background	95
2. Fundamental Research and Platform Technologies	97
3. Road to Commercialization	99
3.1. Nano-Derived Products for Hygiene and Environment	100
3.2. Nano-Derived Products for Textiles and Garments	103
3.3. Nano-Composites	105
3.4. High Value Nano-Derived Products	105
3.5. Manufacturing and Fabrication of Nanomaterials	107
4. Concluding Remarks	109
References	110
Author Biography	111

CHAPTER 4 NANO SCIENCE AND TECHNOLOGY — THE INDIAN ODYSSEY HAS BEGUN 113

1. Introduction	113
-----------------------	-----

2.	Indian Initiatives in Nano Science and Technology	115
2.1.	Jawaharlal Nehru Centre for Advanced Scientific Research, Bangalore	117
2.2.	Indian Institute of Science, Bangalore	117
2.3.	Indian Institute of Technology, Kanpur	119
2.4.	Indian Association for the Cultivation of Science, Kolkata	120
2.5.	Bose National Centre for Basic Sciences, Kolkata	121
2.6.	National Chemical Laboratory, Pune	122
2.7.	University of Poona, Pune	123
2.8.	Indian Institute of Technology Madras, Chennai	123
2.9.	Indian Institute of Technology Delhi, New Delhi	123
2.10.	Banaras Hindu University, Varanasi	124
2.11.	Saha Institute of Nuclear Physics, Kolkata	125
2.12.	Centre for Computational Materials Science, JNCASR, Bangalore	126
3.	Mission on Nano Science and Technology (Nano Mission)	126
3.1.	Research Themes — Nano Mission	127
3.2.	Centres for Nano Technology	130
3.3.	Human Resource Development	133
3.4.	Public-Private-Partnerships	133
4.	Drinking Water — Indian Efforts	134
5.	Conclusions	136
	References	137
	Author Biographies	138

CHAPTER 5 INDONESIA NANOTECHNOLOGY DEVELOPMENT: CURRENT STATUS OVERVIEW

1.	Background	142
2.	History, Strategy and Roadmap	142
3.	Infrastructure and R&D Players	148
4.	Nanotechnology Outreach and Recent Activities	157
5.	Industry Status	163
6.	Conclusion and Recommendation	164
	Author Biographies	166

CHAPTER 6 PART I JAPAN NANOTECHNOLOGY OVERVIEW: POLICY, INFRASTRUCTURE AND R&D

1.	Introduction	170
----	--------------------	-----

2. Japanese Resource Allocation Trends in Nanotechnology R&D	171
3. Activities in Societal Implications of Nanotechnology	174
4. Development of Standards for Nanotechnologies	177
5. NEDO Project on R&D of Nanoparticle Characterization Methods	178
6. Development of Guidelines for Voluntary Management of Nanoparticles	181
7. Nanomaterial and Nanoparticle Management Policies in Japan	182
8. Japan Nanotechnology Network and Infrastructures	184
9. A Unique Industrial Endeavor — Nanotechnology Business Creation Initiative	191
10. Academic Laboratories.....	194
10.1. Nanoscience and Nanotechnology Center at Osaka University .	194
10.2. Nanoelectronics Collaborative Research Center, Tokyo University	194
10.3. The University of Tokyo Center for NanoBio Integration	195
10.4. Esashi, Ono, and Tanaka Laboratory at Tohoku University	195
10.5. Shinohara Research Laboratory at Nagoya University	196
11. Conclusion	196
References	197
Appendix	198
Author Biographies	215

CHAPTER 6 PART II JAPAN NANOTECHNOLOGY OVERVIEW: COMMERCIALIZATION HIGHLIGHTS 217

1. Nanotechnology-Related Market: A Growth Engine	217
2. Rapidly Growing Applications of Nanotechnology	219
3. Steady Advance of Nanotechnologies in the Semiconductor	221
4. Nanotechnology's Great Strides in the Storage Technology	224
5. Robust Application Development of Nano-Biology	225
6. Japanese-Born Nanotechnologies that Contribute to the Environmental Improvement	226
7. The Latest Nanotechnology Messages to the World in Nano Week	229
Author Biography	234

CHAPTER 7 KOREA NANOTECHNOLOGY: POLICY, INFRASTRUCTURE, R&D AND COMMERCIALIZATION 237

1. Introduction	237
-----------------------	-----

2.	Vision and Technology Road Map for the Second Phase KNNI	240
2.1.	Vision	240
2.2.	Nanotechnology Development Roadmap	240
3.	Statistical Data on Korea Nanotechnology Development	242
3.1.	Government Investment	242
3.2.	Publications	243
3.3.	Patents	243
3.4.	Research Manpower	243
3.5.	Infrastructure Establishment	245
4.	R&D Activities by the Three 21C Frontier Programs for Nanotechnology Development	247
4.1.	National Program for Tera-Level Nanodevices	247
4.2.	Center for Nanoscale Mechatronics and Manufacturing	248
4.3.	Center for Nanostructured Materials Technology	249
5.	Highlights of Commercialization of Nanotechnology	251
5.1.	Nano DRAM, NanoFlash Memory	251
5.2.	Nanosilver Ink for RFID	251
5.3.	Antiglare Coating	252
5.4.	Color Film with Nanolayered Structure	253
5.5.	CNT Transparent Film	253
5.6.	Pharmaceutical Products for Atopic Dermatitis	253
5.7.	Antibacterial Nanosilver Powders and Applications	254
6.	Nanotechnology Societies in Korea	254
	Acknowledgements	255
	References	256
	Author Biographies	257

CHAPTER 8 NANOTECHNOLOGY IN MALAYSIA:

A SMALL STEP TODAY TOWARDS A

GIANT LEAP TOMORROW **259**

1.	Introduction	259
2.	National Nanotechnology Initiatives of Malaysia (NNIM)	261
3.	Current Development of NNIM	262
4.	Nanotechnology R&D Activities	265
4.1.	Material and Manufacturing	266
4.2.	Nanoelectronic and Computer Technology	266
4.3.	Life Sciences/Medicine and Health	266
5.	Establishment of National Nanotechnology Centre (NNC)	269

5.1. National Nanotechnology Research Centres (NNRC)	270
5.2. Action Plans of NNC	272
6. Nanotechnology Industry	275
7. Enhancement of Nanotechnology Research Activities	276
8. Conclusion	277
References	278
Author Biography	279

CHAPTER 9 THE MACDIARMID INSTITUTE AND NANOTECHNOLOGY RESEARCH IN NEW ZEALAND 281

1. Introduction	281
2. Overview Profile of New Zealand Nanotechnology Research	284
3. The MacDiarmid Institute Themes	288
4. The Capital Equipment	294
5. Beyond the Science	295
6. Conclusions	299
Acknowledgements	300
References	300
Author Biographies	301

CHAPTER 10 NANOTECHNOLOGY IN SINGAPORE 303

1. The Little Red Dot	304
1.1. Increasing Commercialization of Public Research	305
1.2. Developing the Singapore Enterprise Eco System	306
2. Nanotechnology in Singapore	310
2.1. Research Infrastructure	311
2.2. Commercialization Infrastructure	313
2.3. Application Specific Strengths	315
3. Conclusion	328
References	329
Author Biographies	330

CHAPTER 11 NATIONAL NANOTECHNOLOGY PROGRAM IN TAIWAN 333

1. Introduction	334
2. Scopes and Approaches	335
2.1. Academic Excellence Research Program	335

2.2. Nanotechnology Industrialization Program	336
2.3. The Core Facility Set-Up Program	336
2.4. Education Program	343
2.5. Highlights of the Research Outcomes	344
3. Rapid Industrialization Strategy	348
4. NanoMark System	352
5. Conclusions	354
Author Biographies	356

CHAPTER 12 NANOTECHNOLOGY DEVELOPMENT AND OUTLOOK IN THAILAND 359

1. Introduction	360
1.1. Thailand's Big Step Towards Excellence in S&T and Knowledge-Based Society	360
1.2. National S&T Strategic Plan	361
1.3. National Science and Technology Development Agency (NSTDA)	363
2. Nanotechnology Development in Thailand	364
2.1. National Nanotechnology Strategic Plan (2007-2013)	366
2.2. Overview of Current Status	373
3. National Nanotechnology Center (NANOTEC)	376
3.1. Introduction	376
3.2. R&D Programs and Focuses	376
3.3. NANOTEC's National Network of Centers of Excellence	380
3.4. Key Infrastructures and Facilities	381
3.5. Technology Transfer and Communication	382
4. Future Trend	383
Acknowledgements	385
References	385
Author Biographies	387

CHAPTER 13 INFRASTRUCTURE, RESEARCH AND DEVELOPMENT OF NANOTECHNOLOGY IN VIETNAM 391

1. Introduction	391
2. Science and Technology Research, Development and Education Network in Vietnam	393
2.1. Ministry of Science and Technology (MOST)	394

2.2.	Vietnamese Academy of Science and Technology (VAST)	394
2.3.	Ministry of Education and Training (MOET)	394
2.4.	Vietnam National High-Tech Parks	395
3.	Nanotechnology Research and Development	397
3.1.	General	397
3.2.	Nanotechnology Research and Development Projects	400
3.3.	Nanotechnology Education	402
4.	Some Examples of Research on Nanotechnology	406
4.1.	Application of CNTs in Advanced Rubber	408
4.2.	Application of CNTs in Ni, Cr Coatings	409
4.3.	Application of CNTs in Electromagnetic Absorption Materials and Conductive Paints	410
4.4.	Application of MWCNTs for Thermal Dissipation Media	410
4.5.	Application of CNTs in Electron Field Emission and Scanning Probe	412
5.	Conclusion	413
	Acknowledgements	413
	References	413
	Author Biographies	415
