

Contents

Preface

<i>Thomas Y. Hou, Xinwei Yu</i> : Introduction to the Theory of Incompressible Inviscid Flows	1
<i>Denis Serre</i> : Systems of Conservation Laws. Theory, Numerical Approximation and Discrete Shock Profiles.....	72
<i>Seiji Ukai, Tong Yang</i> : Kinetic Theory and Conservation Laws: An Introduction	126
<i>Xiaoming Wang</i> : Elementary Statistical Theories with Applications to Fluid Systems	230
<i>Yuxi Zheng</i> : The Compressible Euler System in Two Space Dimensions	301
