

CONTENTS

Preface	vii
Acknowledgments	xiii
Magnetism	
<i>Jacques Friedel</i>	1
P. G. de Gennes and Jacques Friedel, <i>J. Phys. and Chem. of Solids</i> 4 , 71–77 (1958)	
Anomalies de résistivité dans certains métaux magnétiques	9
Surface Bound States in Unconventional Superconductors: An Unforeseen Consequence of Earlier Work by Pierre-Gilles de Gennes and Daniel Saint-James	
<i>Guy Deutscher</i>	16
P. G. de Gennes and D. Saint-James, <i>Phys. Lett.</i> 4 (2), 151–152 (1963)	
Elementary excitations in the vicinity of a normal metal-superconducting metal contact	32
D. Saint-James, <i>Le Journal de Physique</i> 25 , 899–905 (1964)	
Excitations élémentaires au voisinage de la surface de séparation d'un métal normal et d'un métal supraconducteur	34
Superconductivity at High Temperature in the Cuprates	
<i>Julien Bok</i>	41
G. Deutscher and P. G. de Gennes, <i>C. R. Physique</i> 8 , 937–941 (2007)	
A Spatial Interpretation of Emerging Superconductivity in Lightly Doped Cuprates	49

Macroscopic Random Media and Percolation	
<i>Etienne Guyon, Jean-Pierre Hulin and Stéphane Roux</i>	54
P. G. de Gennes, <i>La Recherche</i> 7 (72), 919–927 (1976)	
<i>La percolation: un concept unificateur (Percolation a unifying concept)</i>	72
Pierre-Gilles de Gennes and Supersolidity — Comment on C. R. Physique 7, 561–566 (2006)	
<i>Sébastien Balibar</i>	83
P. G. de Gennes, <i>C. R. Physique</i> 7 , 561–566 (2006)	
Quantum dynamics of a single dislocation	92
On “An Analogy between Superconductors and Smectics-A”	
<i>Tom Lubensky</i>	98
P. G. de Gennes, <i>Solid State Communications</i> 10 , 753–756 (1972)	
An Analogy between Superconductors and Smectics-A	127
On a Few Universal Aspects of Liquid Crystals	
<i>Pawel Pieranski</i>	131
P. G. de Gennes, “Nematodynamics”, in “Molecular fluids”, lecture notes of the XXVth session of the Les Houches Summer School on Physics, edited by R. Balian and G. Weill, pp. 373–400, published by Gordon and Breach, London 1976	159
