

Contents

Part I	Introduction	1
Chapter 1	Mathematical Problem Solving in Singapore Schools Berinderjeet KAUR YEAP Ban Har	3
Part II	The Processes and Pedagogies	15
Chapter 2	Tasks and Pedagogies that Facilitate Mathematical Problem Solving Peter SULLIVAN Judith MOUSLEY Robyn JORGENSEN (ZEVENBERGEN)	17
Chapter 3	Learning through Productive Failure in Mathematical Problem Solving Manu KAPUR	43
Chapter 4	Note Taking as Deliberate Pedagogy: Scaffolding Problem Solving Learning Lillie R. ALBERT Christopher BOWEN Jessica TANSEY	69

Chapter 5	Japanese Approach to Teaching Mathematics via Problem Solving Yoshinori SHIMIZU	89
Chapter 6	Mathematical Problem Posing in Singapore Primary Schools YEAP Ban Har	102
Chapter 7	Solving Mathematical Problems by Investigation YEO Boon Wooi Joseph YEAP Ban Har	117
Chapter 8	Generative Activities in Singapore (GenSing): Pedagogy and Practice in Mathematics Classrooms Sarah M. DAVIS	136
Chapter 9	Mathematical Modelling and Real Life Problem Solving ANG Keng Cheng	159
Part III	Mathematical Problems and Tasks	183
Chapter 10	Using Innovation Techniques to Generate 'New' Problems Catherine P. VISTRO-YU	185
Chapter 11	Mathematical Problems for the Secondary Classroom Jaguthsing DINDYAL	208
Chapter 12	Integrating Open-Ended Problems in the Lower Secondary Mathematics Lesson YEO Kai Kow Joseph	226

Chapter 13	Arousing Students' Curiosity and Mathematical Problem Solving TOH Tin Lam	241
Part IV	Future Directions	263
Chapter 14	Moving beyond the Pedagogy of Mathematics: Foregrounding Epistemological Concerns Manu KAPUR	265
	Contributing Authors	272
