<i>Preface</i>	vii
1. Bernstein-Type Operators of One Complex Variable	1
1.0 Auxiliary Results in Complex Analysis	1
1.1 Bernstein Polynomials	6
1.1.1 Bernstein Polynomials on Compact Disks	6
1.1.2 Bernstein-Faber Polynomials on Compact Sets	19
1.2 Iterates of Bernstein Polynomials	26
1.3 Generalized Voronovskaja Theorems for Bernstein Polynomials	35
1.4 Butzer's Linear Combination of Bernstein Polynomials	42
1.5 q -Bernstein Polynomials	50
1.6 Bernstein-Stancu Polynomials	67
1.7 Bernstein-Kantorovich Type Polynomials	96
1.8 Favard-Szász-Mirakjan Operators	103
1.9 Baskakov Operators	124
1.10 Balázs-Szabados Operators	139
1.11 Bibliographical Notes and Open Problems	149
2. Bernstein-Type Operators of Several Complex Variables	155
2.1 Introduction	155
2.2 Bernstein Polynomials	156
2.3 Favard-Szász-Mirakjan Operators	166
2.4 Baskakov Operators	172
2.5 Bibliographical Notes and Open Problems	179
3. Complex Convolutions	181
3.1 Linear Polynomial Convolutions	181
3.2 Linear Non-Polynomial Convolutions	204
3.2.1 Picard, Poisson-Cauchy and Gauss-Weierstrass Complex Convolutions	205

3.2.2	Complex q -Picard and q -Gauss-Weierstrass Singular Integrals	257
3.2.3	Post-Widder Complex Convolution	264
3.2.4	Rotation-Invariant Complex Convolutions	269
3.2.5	Sikkema Complex Convolutions	279
3.3	Nonlinear Complex Convolutions	286
3.4	Bibliographical Notes and Open Problems	294
4.	Appendix : Related Topics	295
4.1	Bernstein Polynomials of Quaternion Variable	295
4.2	Approximation of Vector-Valued Functions	299
4.2.1	Real Variable Case	300
4.2.2	Complex Variable Case	314
4.3	Strong Approximation by Complex Taylor Series	321
4.4	Bibliographical Notes and Open Problems	324
	<i>Bibliography</i>	327
	<i>Index</i>	337
