-------------------------	-----------

## **SECTION I: INTRODUCTORY CHAPTER**

<b>Chapter 1. Introducing Biomedical Engineering</b>	<b>1</b>
1.1. Advancements in Biomedical Engineering	1
1.2. Scope of Biomedical Engineering	2
1.3. Medical Device and Pharmaceutical Industry	3
1.4. Supporting Societies and Professional Activities	5
1.5. Innovations in Biomedical Engineering	7
1.6. Hemodialysis and its Innovators	13
1.7. The Impact of Medical Device Innovations on Healthcare	16
1.8. Career Interests of Biomedical Engineering Students	19
1.9. Three Development Phases to Success	22
1.10. About the Author	24

## **SECTION II: ASSESSING THE VENTURE**

<b>Chapter 2. Evaluating Your Entrepreneurship</b>	<b>26</b>
2.1. An Entrepreneurial Team	26
2.2. John Abele, Pete Nicholas, Medi-Tech, and Boston Scientific	29
2.3. Nature of Entrepreneurship	31
2.4. Wanting To Be an Entrepreneur	32
2.5. Career Entries to Entrepreneurship	33
2.6. Practicing Entrepreneurship	35
2.7. Entrepreneurship and Visions of Uncas A. Whitaker	37
<b>Chapter 3. Establishing Your Venture Invention</b>	<b>43</b>
3.1. How an Entrepreneur Acquires a Venture Idea?	43
3.2. Three Inventions of Medtronic Inc.	45

3.3.	Evaluating Your Invention	49
3.4.	Wallace Coulter's Invention, His Venture and Legacy	53
3.5.	The Venture of Howard Diamond	57
3.6.	Magnetic Guidance System for Less Invasive Surgery	59
3.7.	Innovations and Improvements	60

## **Chapter 4. Researching the Market for Your Invention 63**

4.1.	The Purpose of Market Research	63
4.2.	Websites and Literatures on Medicine and Engineering	65
4.3.	Two Biotech Ventures Founded by Sheridan Snyder	68
4.4.	Entrepreneurial Advice and Thoughts from Snyder	71

## **SECTION III: LAUNCHING THE VENTURE**

### **Chapter 5. Forming the Company 75**

5.1.	Rationale for the Corporation	75
5.2.	Organizational Structure	79
5.3.	Capital Required for the Company's Operation	80
5.4.	Company Registration, Share Distribution and Exit Strategy	82

### **Chapter 6. Patenting Your Invention 87**

6.1.	The U.S. Patent and Trademark Office	87
6.2.	Utility, Design, and Plant Patents	87
6.3.	Trademarks and Copyrights	90
6.4.	The Importance of Patenting Your Intellectual Property	91
6.5.	The Process of Patenting	93
6.6.	Key Elements of a Non-provisional Patent Application	95
6.7.	Special Patenting Considerations	97
6.8.	Value of a Patent	98

### **Chapter 7. FDA Regulations 101**

7.1.	The Food and Drug Administration	101
7.2.	The Safety and Effectiveness of Medical Devices	102
7.3.	Device Classification	103
7.4.	Investigational Device Exemption (IDE)	105
7.5.	Premarket Approval Applications	107
7.6.	Post Approval and Post Marketing Requirements	107

7.7.	New Drug Development on Premarket Approval Application	109
<b>Chapter 8.</b>	<b>The FDA 510(k) Submission</b>	<b>112</b>
8.1.	Overview	112
8.2.	The 510(k) Submission	112
8.3.	Preparing for the 510(k) Submission	114
8.4.	Writing the 510(k) Submission	116
8.5.	Outcomes	119
<b>Chapter 9.</b>	<b>Obtaining Help and Support</b>	<b>121</b>
9.1.	SBA Support for Small Businesses	121
9.2.	Government Support for Technology Development and Commercialization	126
9.3.	Community Support	129
<b>Chapter 10.</b>	<b>SBIR Grants for Product Development</b>	<b>131</b>
10.1.	Vision of Small Business Innovation Research (SBIR) Program	131
10.2.	NIH SBIR Funding	132
10.3.	NIH SBIR Grant Review Process	134
10.4.	SBIR Grant Application Research Plan	135
10.5.	Timelines for SBIR Grant Funding	137
<b>Chapter 11.</b>	<b>Writing and Presenting the Business Plan</b>	<b>138</b>
11.1.	Overview	138
11.2.	Company Status before Preparing the Roadmap	139
11.3.	Roadmap for the Assessing Phase	145
11.4.	Action Plan for the Launching Phase	149
11.5.	Business Plan for the Building-Up Phase	152
11.6.	Presentation of the Business Plan	155
<b>SECTION IV: BUILDING UP THE ENTERPRISE</b>		
<b>Chapter 12.</b>	<b>Financing and Accounting</b>	<b>159</b>
12.1.	Angel Investors and Venture Capital Firms	159
12.2.	Due Diligence by Venture Capital Firms	165
12.3.	Account Management	169

12.4. Budgeting	171
12.5. Financial Projections	172
<b>Chapter 13. Negotiating Deals</b>	<b>180</b>
13.1. The Negotiation Process	180
13.2. The Venture Funding Term Sheet	184
13.3. Executive Employment Contracts	188
13.4. Licensing Agreement	190
<b>Chapter 14. Leading People and Managing Yourself</b>	<b>194</b>
14.1. Preparing Yourself and Managing Your Time and Work	194
14.2. Setting Goals, Incentives and Recognition for the Team	196
14.3. Working with the Team	198
14.4. Building the Winning Team	200
<b>Chapter 15. Manufacturing Your Product</b>	<b>203</b>
15.1. Procurement and Outsourcing	203
15.2. Current Good Manufacturing Practice (cGMP), Accountability and Risk Management	208
15.3. Lifecycle Management for Maximum Value	211
<b>Chapter 16. Marketing and Sales</b>	<b>214</b>
16.1. Know Your Customers	214
16.2. Market Characteristics of Medical Devices and Pharmaceutical Products	222
16.3. Customer Relationship Management (CRM)	225
16.4. Marketing Ethics and Legal Compliance	228
16.5. Preparing Your Marketing and Sales Campaign	229
<b>Chapter 17. Globalizing Your Business</b>	<b>232</b>
17.1. International Operations	233
17.2. Healthcare in the UK, Germany, France and Italy	240
17.3. The Healthcare Systems of Taiwan and China	241
17.4. World Prevalence of Diseases	242
17.5. Work Forces of Taiwan and China	244
17.6. Industrialization of Taiwan and China	247
17.7. Alliance of American, Taiwanese and Chinese Companies	253

17.8. Canada's Medical Device Industry and Manufacturing in Mexico	257
17.9. HME Markets and the Need for an Alliance	258

## **SECTION V: CONCLUDING CHAPTERS**

<b>Chapter 18. Investing in the Future</b>	<b>262</b>
18.1. Investing in Your Company and Yourself	262
18.2. Contributing to the Profession, the Society and the Nation	268
18.3. Doing Something for the World	275
<b>Chapter 19. How to Succeed in Biomedical Engineering Entrepreneurism with Really Trying, by Shu Chien</b>	<b>280</b>
19.1. The Biomedical Engineer as a Person	280
19.2. Development of a Biomedical Engineering Entrepreneur	281
19.3. Inter-personal Interactions	282
19.4. Roles of the Government and the Private Sector	282
19.5. Public Policy and Healthcare Delivery	283
19.6. Global Nature of Biomedical Engineering Entrepreneurism	283
19.7. Conclusions	285
<b>Index</b>	<b>289</b>
