

## CONTENTS

Preface .....	v
Program .....	vii
Risk Sensitive Investment Management with Affine Processes: A Viscosity Approach .....	1
M. Davis and S. Lleo	
Small-Sample Estimation of Models of Portfolio Credit Risk .....	43
M. B. Gordy and E. Heitfield	
Heterogeneous Beliefs with Mortal Agents .....	65
A. A. Brown and L. C. G. Rogers	
Counterparty Risk on a CDS in a Markov Chain Copula Model with Joint Defaults .....	91
S. Crépey, M. Jeanblanc and B. Zargari	
Portfolio Efficiency Under Heterogeneous Beliefs .....	127
X.-Z. He and L. Shi	
Security Pricing with Information-Sensitive Discounting .....	157
A. Macrina and P. A. Parbhoo	
On Statistical Aspects in Calibrating a Geometric Skewed Stable Asset Price Model .....	181
H. Masuda	
A Note on a Statistical Hypothesis Testing for Removing Noise by the Random Matrix Theory and Its Application to Co-Volatility Matrices .....	203
T. Morimoto and K. Tachibana	
Quantile Hedging for Defaultable Claims .....	219
Y. Nakano	
New Unified Computational Algorithm in a High-Order Asymptotic Expansion Scheme .....	231
K. Takehara, A. Takahashi and M. Toda	
Can Financial Synergy Motivate M&A? .....	253
Y. Tian, M. Nishihara and T. Shibata
