INTRODUCTION	1
SECTION 1 — WORLD MARKETS	
Chapter 1:	
<i>World energy markets: trends & changes</i>	
Peter Davies	11
SECTION 2 – NATIONAL STUDIES OF ENERGY STRUCTURE AND REFORM	
Chapter 2:	
<i>Britain’s regulatory regime in perspective</i>	
Colin Robinson	39
Chapter 3:	
<i>Liberalising the Spanish electricity market: can competition work?</i>	
Pablo Arocena.....	49
Chapter 4:	
<i>The electricity supply industry in Poland: the new legal framework and privatisation</i>	
Piotr Jasinski	63
Chapter 5:	
<i>Electricity competition, regulation and the environment – an assessment of the Australian approach</i>	
Hugh Outhred	77
Chapter 6:	
<i>Regulating energy in federal transition economies: the case of China</i>	
Philip Andrews-Speed, Stephen Dow and Minying Yang.....	91
SECTION 3 – ELECTRICITY AND GAS: MARKETS AND REGULATION	
Chapter 7:	
<i>Wholesale trading arrangement: competing options for Europe</i>	
Michael Morrison and Ilesh Patel	105
Chapter 8:	
<i>Regulation policy and competitive process in the UK contract gas market: a theoretical analysis</i>	
Huw Dixon and Joshy Easaw	119
Chapter 9:	
<i>“Regulatory sparks about to fly?” The electricity generation industry</i>	
Melinda Acutt and Caroline Elliott.....	133

Chapter 10:

How will electricity prices in deregulated markets develop in the long run? Arguments why there won't be any really cheap electricity

Reinhard Haas, Hans Auer, Claus Huber and Wolfgang Orasch 145

SECTION 4 – OIL: MARKETS AND REGULATION**Chapter 11:**

Windows on exploration: the estimation of oil supply functions

G.C. Watkins 159

Chapter 12:

Auctions vs. discretion in the licensing of oil and gas acreage

Geoff Frewer 165

Chapter 13:

UK North Sea oil production 1980-1996: the role of new technology and fiscal reform

Steve Martin 179

Chapter 14:

Exploration and development investment and taxable capacity in the UKCS under different oil and gas prices

Professor Alexander Kemp and Linda Stephen 191

SECTION 5 – RENEWABLE ENERGY**Chapter 15:**

Renewables in the UK – how are we doing?

Dr Catherine Mitchell 205

Chapter 16:

Fluctuating renewable energy on the power exchange

Klaus Skytte 219

Chapter 17:

Lessons for the United Kingdom from previous experiences in the demand for renewable electricity

Roger Fouquet 233

Chapter 18:

Modelling the prospects for renewable and new non-renewable energy technologies in the UK and some of the consequences implied

Reinhard Madlener 245

SECTION 6 – ENVIRONMENT AND ENERGY EFFICIENCY**Chapter 19:**

China's energy sector and its environmental impact

Ralph Bailey and Rosemary Clarke 263

Chapter 20:	
	<i>Investment appraisal in the transport sector in the United Kingdom - getting the signals wrong on energy and the environment?</i>
A.L. Bristow	275
Chapter 21:	
	<i>Electricity liberalisation, air pollution and environmental policy in the UK</i>
Peter Pearson	289
Chapter 22:	
	<i>Risk assessment and external cost valuation</i>
Andrew Stirling	303
Chapter 23:	
	<i>Sustainability and nuclear liabilities</i>
Gordon MacKerron and Mike Sadnicki.....	327
Chapter 24:	
	<i>Retail market liberalisation and energy efficiency: a golden age or a false dawn?</i>
Nick Eyre	345
SECTION 7 – A SUMMING-UP	
Chapter 25:	
	<i>Markets, regulation and environment – a summing up</i>
David Newbery	361
Keyword Index	373
TABLES	
Table 3.1:	Capacity (1996) and generation by fuel type (1987-96)..... 50
Table 3.2:	Sector shares of Spanish electricity companies (1996)..... 51
Table 3.3:	Concentration in the Spanish and British electricity industry..... 57
Table 3.4:	Interconnectors with France in Spain and Britain
	58
Table 6.1:	Selected symptoms of deficient regulation in China’s energy industries
	99
Table 8.1:	BG’s share in the competitive market, 1990-96
	131
Table 11.1:	Summary: countries with evidence of contractionary or expansionary supply conditions
	163
Table 12.1:	Impact of past UK auctions on oil and gas tax revenue..... 170
Table 12.2:	Bids and outcomes of auction licence rounds..... 170
Table 12.3:	Significant discoveries on auction blocks
	171
Appendix Table 12.1:	Elapsed time to drilling
	176
Appendix Table 12.2:	Discoveries on auction vs. discretionary blocks
	176
Appendix Table 12.3:	Activity on auction vs. discretionary blocks..... 176
Appendix Table 12.4:	Fallow acreage..... 177
Table 13.1:	Impact of 1983 and 1993 fiscal changes on IRR of selected fields
	186
Table 13.2:	Fields affected by cost-saving production technology..... 187
Table 14.1:	Exploration and appraisal risks in the UKCS from 1984-1994 experience
	193

Table 14.2:	Probability distributions of field sizes in UKCS	193
Table 15.1:	The fossil fuel levy (£m)	206
Table 15.2:	Status of NFFO1-5	207
Table 15.3:	Eligible technologies by NFFO order.....	208
Table 15.4:	NFFO prices.....	208
Table 15.5:	NFFO5	209
Table 15.6:	NFFO 1-5 status as at 30 June 1998.....	210
Table 16.1:	Average total revenue per MWh wind power in the year 2005 (NOK/MWh).....	227
Table 17.1:	Premiums/contributions proposed by suppliers for 'green' electricity in the U.S.....	239
Table 17.2:	Participants, premiums and marketing strategies for 'green' electricity in the U.S.	239
Table 18.1:	SAFIRE technology/sector matches.....	248
Table 18.2:	Accessible resource (MARKAL) vs. technical potential (SAFIRE), in 1,000 GWh p.a.	249
Table 19.1:	Ambient concentrations of SO ₂ and TSP	267
Table 19.2:	Emission reductions and GDP loss in 2050 - percentage change relative to base	270
Table 19.3:	Fossil fuel consumption (percentages) - China and USA.....	272
Table 20.1:	Impacts included in trunk road scheme appraisal CBA.....	277
Table 20.2:	External costs of road transport in the UK per year (£ bn.).....	283
Table 21.1:	Percentage shares in UK electricity plant capacity, 1989-1997.....	292
Table 21.2:	Percentage shares in total electricity generated, UK, 1989-97	293
Table 21.3:	Percentage shares in fuel input for electricity generation, UK, 1989 to 1997	294
Table 21.4:	Fossil fuel emission factors and ratios, UK, 1996	294
Table 21.5:	Power station emissions (million tonnes), electricity generated (GWh) and Fossil Fuel Used (mtoe), UK, 1989-96.....	295
Table 21.6:	Index of emissions per unit of electricity generated, UK, 1988-96 (1990 = 100).....	295
Table 21.7:	Index of emissions per unit of fossil fuel used, UK, 1988-96 (1990 = 100).....	295
Table 21.8:	Forecasts of ESI fuel use percentage shares in 2005 (EP58 and EP65).....	296
Table 21.9:	UK climate change programme 1994.....	297
Table 21.10:	UK CO ₂ emissions in 2000, from EP65 (million tonnes of carbon).....	298
Table 21.11:	EC large combustion plant directive: EP65 CL scenario for SO ₂ (million tonnes).....	299
Table 23.1:	British Energy Segregated Fund – required annual contributions from 1997 onwards	337
FIGURES		
Figure 1.1:	World energy demand exc. FSU	12
Figure 1.2:	FSU energy demand.....	13
Figure 1.3:	World primary energy consumption: regional shares.....	14
