

CONTENTS

Foreword..... vii

I. A Brief Overview

Chapter 1. The Matrix Metalloproteinases and Their Inhibitors 3
Madeleine M. Handsley, Janet Cross,
Jelena Gavrilovic, and Dylan R. Edwards

II. Regulation of MMP Expression

Chapter 2. Genetic Regulation of the Matrix Metalloproteinases and Related Proteins..... 19
Tammie Roy and Elizabeth A. Milward

Chapter 3. Post-Translational Modification 67
Zezong Gu, Marcus Kaul, and Stuart A. Lipton

III. MMP Function

Chapter 4. Substrates for Metalloendopeptidases in the Central Nervous System..... 87
Paul E. Gottschall, John D. Sandy, and
Dieter R. Zimmermann

Chapter 5. Examples of Signalling by MMPs..... 119
Katherine Conant

IV. MMPs and TIMPs in Development

Chapter 6. Metalloproteinases in Development — Breaking Things Down to Build a Nervous System 153
Sarah McFarlane

Chapter 7. Matrix Metalloproteinases in Myelin Formation	189
Peter H. Larsen and V. Wee Yong	
Chapter 8. TIMPs in CNS Development	207
Diane Jaworski	
 V. MMPs and TIMPs in Disease	
Chapter 9. Matrix Metalloproteinases in Cerebral Ischemia	227
Monica Wetzel, Lee Anna Cunningham, and Gary A. Rosenberg	
Chapter 10. Are Matrix Metalloproteinases Detrimental or Beneficial to Artherosclerosis?	249
Vincent Lemaître and Jeanine D'Armiento	
Chapter 11. Role and Regulation of Matrix Metalloproteases in Brain Tumours	263
S. Sajani Lakka and Jasti S. Rao	
Chapter 12. Matrix Metalloproteinases and Related Proteins in Alzheimer's Disease, Parkinson's Disease and Other Neurodegenerative Disorders	279
Carl H. Parsons, Irene Koolwijk, Tammie Roy, Cherie Roy, Daniel Johnstone, Catharine M.P. Vos, Katherine Conant, Elizabeth A. Milward	
Chapter 13. Tissue Inhibitors of Matrix Metalloproteinases, Inflammation, and The Central Nervous System	311
Stephen J. Crocker and Iain L. Campbell	
Index	333
