List of Acronyms		xxv
Chapter One	Introduction	1
Chapter Two	Before Imperial: The Colleges That Federated in 1907	14
	Introduction	14
	The Royal College of Chemistry	16
	The Royal School of Mines	21
	City and Guilds of London Institute and the Central Technical College	26
	Conclusion	34
Chapter Three	The Founding of Imperial College	46
	Introduction	46
	The Move to South Kensington	46
	The Politics of Technical Education	50
	The Founding of Imperial College	54

Chapter Four	Governance and Innovation, 1907–43	69
	Governance and Early Growth	69
	The Founding of the Chemical Technology Department	77
	The Founding of the Aeronautics Department, 1920	81
	The Relationship between Imperial College and the University of London, 1907–29	84
	From the Late 1920s to the Second World War: The Tizard Years	88
Chapter Five	Imperial College during the First World War	114
	Governance and College Life	114
	The Founding of the Department of Technical Optics	119
	The Chemists' War	121
	Other Scientific and Technical Contributions	126
	Coda	131
Chapter Six	Continuity within the Three Old Colleges, 1907–45	147
	Introduction	147
	The Royal College of Science	147
	City and Guilds College	157
	Geology and the Royal School of Mines	164
	Conclusion	168
Chapter Seven	Imperial Science at Imperial College	194
	Introduction	194
	Science and Empire	199
	Biological Sciences	203
	Geology and the Royal School of Mines	210
	Engineering	214
	From Empire to Commonwealth	217

Chapter Eight	Imperial College during the Second World War	233
	Preparing for War	233
	Daily Life at the College	236
	Radar, Operational Research, and Nuclear Science	239
	The Aeronautics Network	245
	Chemistry and Chemical Technology	249
	Biological Sciences: Food Supplies and DDT	253
	Munitions	255
	Southwell Comes to Imperial	256
Chapter Nine	Expansion: Post-War to Robbins, 1945–67 (Part One)	279
	Introduction	279
	Governance and Innovation	283
	Nuclear Science and Engineering	287
	Biochemistry	289
	Computing and Control	291
	History of Science and Technology	293
	The Robbins Report	294
	The ‘Feudal’ System in South Kensington	298
Chapter Ten	Expansion: Post-War to Robbins, 1945–67 (Part Two)	317
	Continuity and Growth	317
	Electrical Engineering	317
	Mechanical Engineering	321
	Civil Engineering	322
	Chemical Engineering and Chemical Technology	326
	Aeronautics	330
	Physics, Mathematics, and Meteorology	333
	Chemistry	341
	Biological Sciences	344
	Earth Sciences	348
	Mining and Metallurgy	351
	Linstead’s Evaluation	353

Chapter Eleven	Corporate and Social Life	396
	Introduction	396
	Ceremonial and Image	399
	Clubs and Collegiality among Students and Staff	404
	The Later Twentieth Century	429
	Conclusion	443
Chapter Twelve	The Making of the Modern College, 1967–85	
	Part One: Governance in a New Political Climate	465
	Introduction	465
	The Penney Years, 1967–73	473
	The Flowers Years, 1973–85	479
Chapter Thirteen	The Making of the Modern College, 1967–85	
	Part Two: Academic Restructuring	502
	Introduction	502
	The Life Sciences	504
	The Physical Sciences	509
	Mining, Mineral Resources, Metallurgy, and Earth Sciences	513
	Engineering	519
	Conclusion	536
Chapter Fourteen	Diversifying the Curriculum	567
	Arts, Humanities, and Modern Languages	567
	Social Sciences, Management, and Business	574
	Conclusion	581
Chapter Fifteen	The Expanding College, 1985–2001...	
	Part One: Governance and the Medical School Mergers	598
	The Politics of Higher Education	598
	Governance: the Ash and Oxburgh Years	607
	Entrepreneurship	619
	The Imperial College School of Medicine (Faculty of Medicine from 2001)	623

Chapter Sixteen	The Expanding College, 1985–2001...	
	Part Two: Some Academic Developments	650
	Introduction	650
	Interdisciplinary Centres	652
	Recent Developments in the Departments	657
	Geology, Earth Resources Engineering, Materials	665
	Engineering and Computing	670
	Computing	679
	Conclusion	681
Chapter Seventeen	Conclusion	717
