

CONTENTS

Preface	v
Acknowledgments	vii
Chapter 1. Advanced Heart Failure	1
Epidemiological Scope	1
Management Overview	4
Definition of Mechanical Circulatory Support	34
Evolution of Mechanical Circulatory Support	35
Individual Mechanical Circulatory Support Devices	39
Chapter 2. Evaluation	70
Referral Network	70
Initial Encounter	75
Tests	78
General Indications/Contraindications	78
Bridge-To-Transplantation Mechanical Circulatory Support	95
Bridge-to-Recovery Mechanical Circulatory Support	97
Destination Mechanical Circulatory Support	98
Differential Indications by MCSD Type	102
Team Recommendation	103
Patient Decision	107
Chapter 3. Management	115
Preoperative Situation	115
Intraoperative Situation	119
Postoperative Situation	120

Long-Term Follow-Up	135
Differential Management by MCSD Type	143
Chapter 4. Outcomes	145
Outcome Assessment/Prognostication	145
Bridge-to-Transplantation Mechanical Circulatory Support	155
Bridge-To-Recovery Mechanical Circulatory Support	167
Destination Mechanical Circulatory Support	182
Abiomed	188
Thoratec	189
Heartmate	190
Novacor	193
Debakey	193
Jarvik 2000	195
Other Mechanical Circulatory Support Devices	196
Differential Outcomes by MCSD Type	198
Chapter 5. Complications	200
Multiorgan Failure	200
Right Heart Failure	200
Arrhythmia	204
Infection	205
Bleeding/Hemolysis	221
Renal Dysfunction	228
Respiratory Dysfunction	230
Gastrointestinal Dysfunction	231
Malnutrition	233
Neurological Dysfunction	234
Psychiatric Dysfunction	236
Mechanical Circulatory Support Device Dysfunction	238
Mechanical Circulatory Support Device Failure	242
Differential Complications by MCSD Type	243
Chapter 6. Research Strategies	244
Outcomes Research	244

Basic and Translational Research	245
Differential Development by MCSD Type	249
Future Directions	250
Chapter 7. Societal Perspectives	252
Role of Governmental Agencies	252
Quality Assurance Considerations	254
Economic Considerations	255
Ethical Considerations	258
Philosophical Considerations	262
Summary	268
References	271
Appendices	297
Appendix 1: Evidence-Based Medicine Criteria	297
Appendix 2: Contacts (Industry, Expert Societies, Agencies)	302
Appendix 3: Infection Protocols	314
Appendix 4: Anticoagulation Protocols	317
Appendix 5: Weaning Protocols	320
Appendix 6: Columbia University Evaluation Form	321
Patient/Family Experience Vignettes	325
Glossary	376
Abbreviations	392
Index	395
